## AMIKRITI

### CHAIRPERSON'S MESSAGE

Dear Amitians,

To make this world a better place to live in, Amity has always been striving hard to provide world class facilities to our students with respect to teaching and learning environment, conducive ambience and dedicated faculties. Amikriti is another feather to the cap which promotes the creative skills of our children in all domains for their holistic development and help in turning out sensitive, socially conscious and morally sound individuals. With this vision in mind, let's move ahead with passion and confidence in making Amikriti a great success.

### PRINCIPAL'S MESSAGE

Amity has always augmented environmental consciousness and reparation. We are blessed that Nature Nurtures us all. At the same time, it is our joint responsibility to invoke the consciousness that manmade conditions are destroying nature and to have a plan of action towards nation building. With the current scenario of continuous retardation in the quality of air around us, that recently led to closing down of schools and a loss of innumerable study hours for children, there is a mass appeal to make a sincere effort to 'Save Mother Earth' by enhancing greenery around us. This can be done by planting more trees, conserving water, managing waste and banning the usage of plastic bags, to name a few. Contact with nature is good for physical and mental well-being too. I urge you all to plant & adopt trees, keep your surroundings clean, innovate means to save water and reduce garbage and thus save Mother Earth.

Happy reading!

Honorable Principal, Ms. Arti Chopra accoladed with the "Principal of the Year Award", 2019 as an acknowledgement to honor her admirable contribution in the field of education.

## MISSING THE CITY OF JOY (POEM)

Kolkata the city of joy.  
my home and my city.  
The best place I could ever be.  
First comes the proud edifices  
Standing forever –  
Like Jorasonko thakur bari  
The house of the famous Tagore  
Or queen Victoria's palace,  
A grandeur sight to be seen  
Next comes the famous sweets  
The *misti dois* and the *roshogollas*  
The most appetizing in the world  
A taste that will call you forever  
Coming last but not least  
is the most epic festival of all  
Celebrated by friends  
With love and elation and pomp  
Durga puja  
with many things to eat  
Many clothes to wear  
and days of fun and frolic  
Never to be forgotten wherever you are  
Now you see why Kolkata is called the city of joy  
And if you ever get a chance  
Visit her  
The city of joy is waiting for you  
full of fun and filled with love

### HOW I LEARNT THE LESSON OF MY LIFE

I was stuck at a particular level in a game for a very long time, and nothing worked to help me clear the level. I simply felt like giving up. I stopped trying and just wanted to count, how many more times will I fail. And just then, I won the game. I was elated. I felt happy to the core. Then I introspected, maybe I was focusing too much on the result, not the process. Maybe I was focusing too much on winning, not on the finer nuances that led to my win. Maybe it is more about the mindset, less about the skill, and together they teach us the lessons of life.

#### My personal learning/quote:

**“Life is never about winning, it is always about going to the next level, enjoy the number of times that make it to that level. What you learn while losing, lays the platform for winning.”**

## NAUGHTY CHARLIE

Once upon a time there was a naughty boy named Charlie. He used to trouble everyone. He broke his toys and his friends' toys too. So nobody wanted to play with him. He also troubled his parents and teachers. One day his parents put him in a hostel that was far away from his home. He got angry and troubled everyone more. His teachers gave him strict punishment. In the new school also he had no friends. One day a new boy came to his class. His name was Raju. Raju was a very intelligent boy. He used to help everyone but he was black in colour so nobody wanted to talk to him. Then one day Raju asked Charlie, “Will you be my friend?” Charlie replied, “Yes”. So they became friends. One day Charlie was doing a mischief in which Raju got hurt badly. Everyone scolded Charlie but Raju told everyone that it was due to his mistake and saved Charlie from punishment. Charlie then realised his mistake and promised Raju that he will behave nicely and be a good boy. And they became best friends forever.

Moral of the story: We should always take care of our loved ones.

## RECIPE FOR HAPPINESS

There are lips and forty three muscles to use,  
To smile and laugh out loud.  
There is no good by being sad,  
Or getting angry to scream and shout.

Happiness takes two minutes to prepare.  
Just a hint of laugh,  
and you are ready to start it here.  
No crying to be added.  
Just a little tear to check,  
cause your tear says it all,  
if you are happy and depressed.

Keep smiling your whole life,  
Even a happy crying would settle.  
For everyone you love to be healthy and better.

Why to be sad,  
when you can show your smile.  
Why to smile only outside,  
when you can show the world that you are happy.  
Why hide your smile,  
when you can pass it to everyone.  
Why to be shy,  
when you can be number one.

## THE WORLD IN 2080

One morning, to my surprise I woke up to see,  
The calendar, it read 5 September 2083!  
I saw a little robot coming with my breakfast tray,  
Gives it to me and pleasantly says "Good Day!"  
Then suddenly through my window comes dad's car,  
I look down to see our house, as tall as a tower!  
With a press of a button, the doors open on its own,  
On my side, the dog is chewing a metal bone!  
My clothes are chosen automatically,  
It doesn't take an hour!  
I can teleport myself anywhere, near or far!  
The cars can swiftly fly,  
Everything has changed, I don't understand why?  
I decided to sleep; life seemed like a game,  
I loved it when everything was nice and plain!  
Then suddenly my mum gave me a shove and said it was late,  
16 August, 2019 was the date.  
Through my window I saw everything back to green,  
My, my what an interesting dream!!!

## MY DAD MY HERO

Thank You Dad for being with me,  
You are the best man I have ever seen.  
There are no words to describe you now,  
And that is how I know about you.  
You deserve a THANK YOU anyways,  
Because you help me in all my case.  
You have been with me for every single day of life,  
And give me support to do things right.  
When things get in trouble sometimes,  
You help to make them upright.  
You are my true hero I have ever seen,  
And you are the best dad in the whole world.  
The ways you have helped me  
Can never even fit in a long list.

## EARTH'S FEMININE WONDER

Don't commit a blunder,  
Protect the earth's feminine wonder.  
If you let her free,  
You'll at the things done by she.  
She can not only cook,  
She can also write a book.  
She can not only grind,  
She can also lead the mankind.  
Want to know what else she can do?  
Let her free,  
Then wait and see...

Ritisha Roy – Class 8A

## LIFE

I've been wondering  
How life would've been  
If we could always see  
What remains unseen.  
Life can be like a dream  
Where nothing's as it does seem  
And it can get tough,  
To find a hopeful beam.  
But it isn't always so  
And we must know,  
That things in life  
Can always come and go.  
Life can be cheerful like heaven,  
Or it can as dreadful as hell.  
what it'll throw next in our path,  
We can never tell.  
So we must be prepared and be courageous  
And be ready to face whatever comes.  
Also remember that when it does,  
We'll always have our loved ones  
To lean on, count on and help us move on.  
So it is up to us,  
What we really do.  
How we climb up the steps  
Of life's avenue.  
The beginning does not matter,  
Nor does the end.  
What really does is how  
The colours of our journey blends.

### HOPE

Through a small window in the room,  
They can see the glowing sun,  
They can surely feel the wind,  
But can't afford to enjoy the fun.

Though they have legs to walk,  
And hands to lend immense care.  
But getting out from where they are,  
Is a difficult dare.

The festive season is on,  
They can see the crackers bursting tonight,  
But the nightmare is ....  
They would not have their family in sight.

For the past infinite years,  
They are going through the same 'it',  
Within that one smelly room ,  
They are allowed to stand and sit.

They are 'FRAMED' as terrorists,  
For unknown blasts.  
But the truth is what we know,  
It's all because of religion and caste.

They want to scream out the truth,  
But no one is there to hear.  
They were once the men living with pride,  
But now their eyes are filled with fear.

Though the truth can never be suppressed,  
But what is now done cannot be undone.  
But their courage is sure to succeed,  
And help them see the rising sun.
