CHAIRPERSON'S MESSAGE

Dear Amitians,

Greetings!

“Educating the mind without educating the heart is not education”.

Aristotle

At Amity we do not merely impart knowledge; we guide our children towards right principles, ethics and moral values .We ignite the flames of lifelong curiosity, foster a reverence for values, and sculpt compassionate and responsible global citizens .

Our unique teaching and learning process with a proper blend of theory and practice has proved a stepping stone towards over-all excellence.

We ,as educators have realised the urgency to forge a new path, one that is collaborative, interdisciplinary, and profoundly enriching in its approach to teaching and learning. Our mission is to equip our students with the tools they need to navigate the complexities of the modern world, to instil responsibility, discipline, fellow -feeling ,strong value system ,global harmony, and positive outlook. I am so delighted to see the students taking up social projects and the practice of Shramdhan in the school . Volunteering is a great way to give back to the community. Helping your community is an opportunity for you to grow as a person, to better understand how you fit into the world around you.

The role of a school is not only to pursue academic excellence but also to motivate and empower its students to be lifelong learners, critical thinkers, and productive members of an ever-changing global society. A school must try to provide its students with an atmosphere for multifaceted development, where children are encouraged to channelize their potential in the pursuit of excellence. This can only be possible in a holistic, student-centric environment.

Dear students, delve deep into the realms of your mind and find some treasures there. Make the best use of opportunities , exposure and experiences provided to you to prove your innate capabilities. Circumstances may cause interruptions and delays, but never lose sight of your goal. Prepare yourself in every way you can by increasing your knowledge and adding to your experience, so that you can give your best .

With blessings

(Dr.) Amita Chauhan

PRINCIPAL'S MESSAGE

Sustainability: A call to save the future

“The best way to predict the future is to create it.” - Peter Drucker

It has been Amity's drive to make students responsible citizens of the world; ones who possess skills such as adaptability, resilience, leadership, self- management and decision making. It is expected that they understand their responsibility towards the eco sphere, flora and fauna that they associate themselves with and to create opportunities to conserve resources, be it water or energy in a bid to move towards a sustainable culture. Sustainability is the ability to maintain or support a process over time and it needs to be practiced on all fronts; whether economic (e.g. saving monetary resources), environmental (reducing carbon emissions) or social (reducing inequality, towards better health).

A few things that need to be done are:

1. Attitude of "less is more" or Simplicity is better than elaborate embellishment. Gandhi Ji's belief in simple living and high thinking; points towards optimum utilisation of resources.
2. Recycling helps in conserving resources by making creative utilisation of existing ones. Using coconut shell as a planter or using old newspaper as a cover; are some examples.
3. Reduce waste, by using less, separating wet and dry waste & organising, or recycling
4. Go green!! Live a greener life, by keeping your home green, shunning the use of plastics as much as possible.
5. Boycott products that endanger wildlife.
6. Walk more, cycle more, use less fossil fuels
7. Innovate practices and products to help humanity live a healthier life by adopting fitness regimens.
8. Adapt United Nation's SDG's and continue to practice them in daily life.

Adapting Sustainability practices involve taking the world community towards a bright tomorrow, that has creative solutions to existing problems, towards more lucrative careers and positive mindsets ready to change so that future generations may inherit the green planet too.

Happy reading!!

With beat wishes!!

Entrepreneurship

In a world full of entrepreneurs, a tale unfolds,
Where dreams take flight and passions are bold.
A baker sets forth, with flour and dough,
Creating delights, happiness all in a row

In a kitchen's warmth, like a gurudwara's grace,
Each recipe becomes a sacred embrace.
With love as their guide and flour as their art,
They bake with a purpose straight from the heart.

Reducing food wastage becomes their need,
A mindful approach for every deed.
No crumb is wasted, not a bite is left behind,
With each slice, a purpose they find

So let's celebrate, entrepreneurship's might,
a journey of practice, a noble fight.
With bake and sale, they spread goodness all around,
A world with less waste, where love is found

Father's Love

A dad is a person who is always there on your side,
whether you are wrong or right.

A dad is a person who is loving and kind,
but I don't know how he can read my mind.

A dad is a person whose love is unconditional,
who seems to be strict but very emotional.

A dad is a person who never feels tired and always ready,
Thanks for everything, I love you daddy!

ARADHAY SHANDILYA(7-1)

My father

In my heart my father is revered,
A man with love that has never disappeared,
His voice, a melody, so gentle and kind,
Guiding me through life with wisdom refined.

His hands rough and calloused, yet full of grace,
building a foundation, a loving embrace,
With every brick laid, with every nail driven,
He taught me the value of hardwork given.

In his eyes, I see strength and integrity,
A pillar of strength, a symbol of unity,
Through the storms of life, he stood tall,
Teaching me resilience, never to fall.

His laughter, a symphony of joy and delight,
Filling our home with warmth every night,
His jokes, his stories, lighting up the room,
Chasing away the darkness, like a summer bloom.

He taught me the value of being kind,
To lend a helping hand, never to mind,
To stand up for justice, to be a voice,
To fight for what's right, to make the choice.

His love, unwavering, like a timeless song,
Guiding me, guiding us, all along,
When I stumble, he picks me up with care,
Showing me that he'll always be there.

So on this day, I would like to thank my father,
for the love and lessons he still gathers,
A man of honour, of faith, and of grace,
Forever cherished, in every embrace.
