CHAIRPERSON'S MESSAGE

Greetings!

As we stand on the threshold of bidding adieu to 2022 and welcoming the New Year 2023, I go down the memory lane introspecting the challenges we have faced this year. When School opened Post-COVID, we all had to overcome the obstacles of transitioning from online to offline mode of teaching and learning.

Yet we all rose to the challenge, climbing the ladder of success with utmost dignity and respect for each other, leaving no stone unturned to achieve our goals.

The New Year 2023 is synonymous with PERSEVERANCE and HOPE, hoping that all my students who are back in school physically amongst their teachers and friends, have been able to bridge the gap fostered by COVID Lockdown. I am filled with Gratitude for all that was well in 2022 and HOPE that 2023 will unveil a new and promising chapter in all our lives and enable us to deal with the challenges ably. I am proud that my students spared no efforts in dealing with academic challenges, meeting the deadlines and learning in offline mode once more. I wish all of you success in completing your goals in 2022 and a Very Happy New Year in 2023; and may God Almighty gives you immense strength and courage to overcome all hurdles and evolve new and innovative ideas to make our nation proud. You all are blessed by God and have conquered our hearts with your indefatigable efforts to rise victorious with flying colours; a phoenix from the ashes of COVID'19!

PRINCIPAL'S MESSAGE

PROGRAMMING' THE FUTURISTIC MINDSET

As rightly said, it is all in the mind, as a great thought can change perception, augment innovation, transform attitude, revolutionize society and even save humanity. Each one of us has a powerful driving force within us that protects our goals, keeps us sane and assertive and crushes all excuses of inaction or negativity. In the constantly evolving world that we live in today, we need to have a mind capable of unlocking the immense potential that remains hidden within us, due to lack of self-awareness. Amity empowers students with disciplined, synthesizing, creative, respectful and ethical minds, so as to enable them to become futuristic global citizens who can take charge of their lives.

The Disciplined mind guides in bringing structure and efficiency to the way we work, instilled through daily practice of chanting Gayathri, yagna, value-based assemblies and adoption of BHAAG formula in life. Practicing Chess, Trigonometry, Archery or violin, just to name a few activities, in a disciplined manner has given us immense recognition, be it at state, national or international level. The rigor to practice open ended questions, MCQs, quizzing etc. enables our students to critically analyze information received from a variety of sources and helps in developing a synthesizing mind. This paves the way for seeing the bigger picture in one's life and make learning lifelong.

Creating new things but also finding new ways of doing the tasks at hand by finding creative solutions to the problems they relate to, helps in inculcation of Creative Mind. There are structured efforts made continuously in these directions. Respecting parents, teachers, environment, community, the nation and the universe comes effortlessly to our students as they have a respectful mind that understands differences between individuals by valuing and accepting ideas that are different from their own. By working for Amitasha students and others in community, students learn to find purpose beyond self-interest. Youth Power, Service-Learning projects and Interact Club initiatives help in developing an Ethical mind that empathizes with others.

Mind programming is the latest fad of this century. A healthy mind, nurtures positive thoughts, that work as catalyst in forming desirable habits, that sublimates into one's work profile much needed for scripting a success story of a student's mission in life.

Students can plan a preferred future by staying pragmatic and honest with themselves. It is important to decide the 'who' one socializes with, along with, the 'what', one actually does in their free time, as friends is the family 'you' choose and by bonding with the right people, everything is possible. Not only this, developing a futuristic mindset entails considering the 'tools' around you, like taking the help of your teachers, making the most of the progressive environment created by participating in scholastic & co scholastic activities to enhance your IQ, EQ & SQ.

An Amitian must endeavor to indulge in self-reflection and self-awareness discourses offered by school both offline in the classrooms and online through the LMS platform. लोका समस्ता सुखिनो भवन्तु !ॐ शान्तिः शान्तिः शान्तिः This is an apt Sanskrit mantra from the Upanishads that resonates with the power of the mind, saying, "May the thoughts, words, and actions of one's own life contribute in some way to that happiness and to that freedom for all and let all beings be happy and free."

Wishing all the readers the ability to develop futuristic mindsets that are progressive towards peace and harmony for all.

Happy Reading!

Arti Chopra

WHAT DO SANTA'S ELVES DO ON THEIR DAY OFF?

CHRISTMAS

Do you know how hard the elves work? Do you think Santa gives them a day off? What would they do on their day off? I think Santa and elves take few days off after Christmas and start working again after New Year's Day. I think the elves would do nothing but be lazy on their day off. They would sleep till late morning and even after waking up would feel lazy. They would just sit in the soothing sun and eat a big tub of ice cream for breakfast. After reading a book for sometime they would fill in the tub with nice hot bubbles and take a long relaxing bath. I believe after a quick lunch they would nap for a long time. In the evening they would order their dinner and enjoy a relaxing massage by an expert. Refreshed after the massage and dinner, they would just sit by the fireplace on comfortable couch and watch Netflix and have some hot chocolate. This is how elves would relax and chill on their day off.

I am so happy because
It's the season of Santa Clause
I wait eagerly for the gifts
And will be thrilled to bits
Wish this time would forever pause.

Stars

Once there was a wonderful star
It looked so close but was quite far
I thought it was winking at me
As it hid behind the tree
Putting my thinking cap on
I caught it in a water jar.

THE CHRISTMAS MYSTERY

Cairol, Holly and Finn were having a wonderful picnic with their parents in the misty woods. The sun was shining brightly and the air was blowing gently. Holly picked up the crumbs of bread to feed the pigeons when suddenly a gull dropped a letter at her feet. She opened it and it said -

Visit 4 most famous monuments of India and if you visit them, you'll find any letter like A, B, C on the roof. Unjumble the letters and visit it thereafter.

Holly hurriedly told Cairol, Finn and her parents. Her parents decided to visit the Taj Mahal, Golden Temple, Khajuraho and the Konark Sun Temple. The children were incredibly happy to go as they wanted to solve the mystery. Before they knew it, they had visited all of them. At the roof of the Taj Mahal, Golden Temple, Khajuraho and the Konark Sun Temple they found the letters **N, W, S, O**. They unjumbled the letters and formed the word **SNOW**. They felt extremely excited on making progress. Cairol said that they should go to the north pole as there they will find snow. Their parents booked the tickets to the north pole and they arrived at a spot. After a few minutes of waiting, they heard big heavy footsteps. They looked up and what do you think they saw? Santa Claus! Santa Claus hugged the children tightly and gave them presents for solving the mystery.

It was the best winter vacation of Cairol, Holly and Finn.

A CHRISTMAS DREAM

The day finally arrived! Lily was excited as it was Christmas Eve.

She couldn't wait to go to sleep! She hurriedly finished dinner, kept her Christmas wish list under the tree, brushed her teeth and ran to her bed, forcing herself to sleep. Her mother, Mary gave her a goodnight kiss and a mug of her special hot chocolate. Eventually, Lily dozed off.

Around midnight, she heard loud sounds of chewing and drinking. At first, she thought it was a thief, but then, as she squinted her eyes, she saw Santa, standing right beside her bed. She couldn't believe her eyes and jumped out of her bed to see if it really was Santa! "Oh! Hey there! I didn't realise you are awake!" he said, while gulping down the milk. "I'm sorry, I didn't mean to wake you up. In order to make up for my mistake, I will grant you a wish! Ask for anything you want." Lily froze! "Anything?" she said doubtfully. "Yes!" chuckled Santa.

She pondered for a while and exclaimed, "I want to be Santa Claus! But..." Santa waited eagerly to hear Lily's wish. She continued, "I would be called Santanna and my reindeer, Rudy! I would wear colourful clothes for Christmas. I would style my shiny brown hair with cute hair clips and a hairband and would wear makeup every day." "Ho! Ho! Ho!" giggled Santa, "I assume you have more things to add?" "Oh yes! A lot more", said Lily.

"I wouldn't climb through chimneys, instead would teleport to distribute gifts with my friend Rudy. I will use my magic wand to stop all disasters and accidents, help needy people by fulfilling their wishes and make this world a happy place. I would make clouds of cotton candy that shower sweets and chocolates", said Lily. Santa laughed, as his voice slowly faded.

Lily heard her mother's voice, "Merry Christmas, honey!" She said while waking Lily up!

Lily told her mother about last night. "Oh dear! It was a dream", said Mary. Lily felt disappointed. Just then, she laid her eyes on a huge pile of presents under the Christmas tree. She squealed with joy, "Merry Christmas mom!" and started unwrapping the gifts.

BIG OR SMALL

Am I big or am I small?

I can't understand at all,

People change their views for all,

I am only eight after all.

Now and then considered too big to ride a toy car

Sometimes too small to drive a real one on the tar.

Laughed at while reading Peppa pig

but stared at angrily if glancing through movie flicks.

I just want to ask them all why can't they make

Up their minds after all?

RIYAARTH SARAOGI (CLASS 4I)

AM I GOOD ENOUGH?

I come back home,
check the phone
open insta, Facebook, and other platforms
to see how many likes I got on my post.

Oh, no! am I not good enough?
The number remains 24.
I calm myself down
and try to disperse the frown.

Alas! my mind keeps running back to the stuff online,
wondering if the comment was a truth or a lie?
Oh God, this makes me feel the doubt,
making me feel the need to cry my heart out.

For a while, I forgot these were strangers
whom I was talking to.
I noticed that these were the people influencing me,
a pose is what I am supposed to do,
and a filter is what I need to use.

Forcing me to give it a thought,
if I were good enough or not?
But now all I feel is just fake,
I believe it is the moment to ignore them
and I begin the change.

Days passed by I didn't go online
Nor do I care about my profile.
Eventually, I came back to normal,
But my so-called online friends thought I was abnormal.

Definitely, it took time
but all I know is in the end,
I am all fine.
As relaxed and free as a seashore,
Shining bright and touching the heights like before.

I began a fresh phase of summer in my life,
knowing it's enough to be enough just for myself.

TEACHERS PET

The lure of being a good boy
makes him feel like a toy
the sensational feeling of pain
makes him throb and let the tears rain
being called the teachers pet
makes him sad and discontent
being called anonymously makes him incompetent

The small lad was depressed all the time
but his loved ones came up with a new vibe
they laughed with him
they cried with him
and now maybe he is a part of a the class tribe.

DARSH KASHYAP (CLASS VIII)

'MOUNTAIN OF VICTORY'

Climb the mountain of your dreams
Take a step forward and don't look back
Set an aim to achieve your goal
Don't put pressure on your soul by saying 'I can do it'
Because your soul already knows it
Choose the right mountain to climb
One step to set your destiny
Don't judge the mount by its height
It's you that wishes to fly high like a kite
Fall and tumble but stand right back
When you reach the top, don't forget to celebrate
It was you who it made there with your high ambitions
Capture the unforgettable moment and your victory celebrate!

NATURE'S HEALING TOUCH

The creator of earth, who made Nature vivid and di-
vine
Its lap is always gentle and benign
Its aesthetic beauty is a gift of god
But man's reaction to it is bitterly odd

Its lush landscape leaves one spellbound
Flora and fauna found all around
Words to describe the sky are too many
And a sky full of stars is worth every penny

Happiness is found in nature's beauty and tranquility
A walk in the lap of nature brings a lot of positivity
Nature joyfully colours the spirit
Its healing and majestic power has no limit

DITYA GOEL (XI SYNCHRO)

'THE LOVED ONES THAT LEAVE US'

The Loved ones we miss
Look upon on us from yonder.
They watch over us,
They know, we remember.

Let us not think they are gone,
For, they are with us always.
They are the Joy in our smiles.
Like tears of happiness in our eyes

Like the Perfumed breath of a Spring Day.
They weave their golden blessings into our lives;
For they are the fortitude in our steps,
And the glow of hope in our hearts.

When I look up, I imagine a golden winged form,
With a Halo of kindness upon its brow.
Such an angelic glow I see...
It blinds me to any other reality.

So take heart in the knowledge
That they see us all the time,
And every day, 'They breathe hope into our endeavors
And are 'NEVER FAR AWAY'.

LETTER 'S'

The letter 's' has so much depth to it,
It can be added after every word and,
it becomes the privilege of some
And a want for many.

Having parents, edibles, funds, resources, books
Is an entitlement that not everyone gets
It is a luxury, not everyone understand
And it is the hard work behind it, not everyone does

Sympathy is not what they ask,
Old possessions is not what they need
A ray of hope, to turn their lives around
Is what we need to feed

Giving a helping hand is priceless
To those, who find even water pricey
Letting belongings go away for free, for us is lifeless
But that can bring smiles for many like me

I make you only understand the expenses for homes
having nothing,
yet, a family to fed, fund, educate,
A house to buy, furnish, rent,
A child to play, enjoy, excel
All words without the letter 's'

KRITYONA SSAHU (XI- S2)

TEMPEST OF SORROW

Sorrow like a raging tempest
Drowns me whole, and darkness abounds
The waves recede, the night grows cold
Is there no relief, no saviour found?

Bound by chains, agony follows
Sinking deeper, I'm carved up hollow
How long can I last?
How long can I bear?
Am I lost to time as my heart fears?

Memories flash by, so do regrets
I look up and hope I can forget
Undefeated I must face life's maze
I don't think I am done
I hope anew through a tear-filled daze.

विषय - बाल दिवस के अवसर पर----

बाल दिवस के इस अवसर पर, संकल्प करें कुछ करने का,
अच्छाई के हक में लड़ने का, जीवन में आगे बढ़ने का,
मुश्किल कैंसी भी हो, हल करने को, हम असाधारण प्रयास करें ।
जीवन के कैनवास पर, हम आशाओं के रंग भरें,
मानव हित में कुछ हटकर, कर जाने का संकल्प करें,
प्रकृति के हर रंग में, रंग जाने का संकल्प करें ।
फूल, पौधे, तितली, बाग-बगीचों के संग, कुछ समय बिताने का संकल्प करें ।
सूरज, धूप, चाँद-चाँदनी, आसमान की रंगत को कुछ कहते देखें,
प्रकृति के गोद में पर्वत, नदी और पानी संग, झरनों को बहते देखें।
चंचल, जिज्ञासु स्वभाव, निश्छल भाव, इनकी पहचान भी है
सच्चा, पारदर्शी मन इनका, बच्चों में भगवान भी है.....
बाल दिवस की इस बेला में, आओ संकल्प लें सभी,
जिम्मेदार नागरिक बनने का, अच्छाई के हक में लड़ने का,
सच्चाई की राह पर चलने का, जीवन में आगे बढ़ने का.....।
