

AMIKRITI

AMITY INTERNATIONAL SCHOOL
SECTOR- 46, GURUGRAM

CHAIRPERSON'S MESSAGE

Dear students,

"We must believe that we are gifted for something, and that this thing, at whatever cost, must be attained." - Marie Curie

As we conclude another academic year, I wish you to take a moment to introspect on your journey. Reflection in learning is a critical process that transforms experience into meaningful knowledge by analysing actions and assessing strengths and weaknesses.

It enhances deep understanding, fosters critical thinking, and improves future performance.

Self-assessment is like being your own coach. By reflecting, you can set realistic goals and make progress. It's not just about grades; it's about understanding your thought process and working style. By regularly assessing yourself, you can develop your mindset and can become proactive learners who can tackle challenges. Self-awareness is key to developing emotional intelligence, confidence and decisiveness as well. Right reflections can serve as beacons of growth.

These experiences can mentor you in the best possible way, teaching you resilience, adaptability, and the importance of perseverance.

By accepting challenges as opportunities for growth, you can unlock your full potential and emerge stronger, wiser, and more competent. Remember, it's not the challenges that define us, but how we respond to them. What is significantly required is the purposeful utilisation of "Me time". It facilitates deep reflection, boosts creativity, regulates your emotions, reduces stress, upgrades you and allows you to reconnect with your true self, interests, and values. Therefore, you need to review every move you make and frame the self-improvement strategies accordingly.

Let's empower our children to own their learning. As educators, we can encourage reflection and introspection by creating opportunities for them to explore their thoughts and feelings. Let's help them become the captains of their own journey.

Dear children, thrive in an increasingly interconnected world, give your best and bring laurels to your esteemed institution.

With blessings
Dr. (Mrs.) Amita Chauhan
Chairperson

PRINCIPAL'S MESSAGE

Dear Readers,

NEP 2020 outlines the 'holistic' and 'multidisciplinary' aspect of education as a foundational principle for guiding a robust and vibrant school education ecosystem in India. The employment landscape requires individuals with skill sets embedded in multiple disciplines and a sound understanding of knowledge creation and its application for the benefit of self, society and the world. The aim of education is no longer limited to cognitive development, but also building character and creating holistic and well-rounded individuals equipped with the key 21st century skills.

Schools and stakeholders need to engage in critical deliberations for working out transaction mechanisms ensuring that these skills and values are imbibed through engaging teaching and learning processes. The deliberations over this subject will entail critical discussion and brainstorming towards identification and ramifications of approaches appropriate for holistic and multi-disciplinary Education for diverse career opportunities.

NEP 2020 can reshape the education system through structural changes, participative pedagogy, digital technology integration, and fostering a mindset for curiosity and community engagement. It can cultivate a culture of curiosity, community involvement, and independent thinking among students while implementing NEP 2020 reforms. Schools can promote holistic development through multi-disciplinary curricula, integrating subjects and extracurricular activities. Effective pedagogies like inquiry-based learning and continuous assessment promote critical thinking and the application of multi-disciplinary knowledge is a solution for the future.

At Amity , it has been our consistent endeavour to design multi-disciplinary regimens that create a holistic futuristic educational experience addressing the breadth and richness of human minds. Our newsletter – Amikriti is a true reflection of that commitment.

Spotlight on Achievers

Our Students Showcase Their Innovations at the AI Summit

Chinmay Karwa and Abhay Bailey both of Class XI, from Amity International School, Sector-46, Gurugram, successfully represented the school as exhibitors at the prestigious AI Impact Summit 2026 on February 20, 2026 at Bharat Mandapam, New Delhi. Highlighting their innovations—Signal Surge and Rakshak AI—at the Amity University Booth, the students engaged with a high-profile audience including global leaders, investors, industry experts, and international delegates. Both projects received an overwhelming response and positive feedback, highlighting the practical impact and technical ingenuity of the solutions.

"Innovative School of India" Award

Amity International School, Sector 46, Gurugram ascended to national prominence as it was conferred the illustrious title of "Innovative School of India" at the 8th BW Education Top Education Brands Awards 2025, held at The Park Hotel, New Delhi. Principal Dr. Arti Chopra accepted the laurel on behalf of the institution, reflecting Amity's luminous legacy of innovation and excellence.

Our Commerce Champ Achieves Triumph at the ICAI Commerce Olympiad

Vardaan Luthra of Class XI-F, distinguished himself at the National-Level ICAI Commerce Olympiad held on 25 January 2026 and earned a cash prize in recognition of his academic excellence. His accomplishment reflects dedication, unwavering commitment and drive to ace it.

Our Young Scientists Lifted DHANANJAY MOHAN Rolling Trophy

Our innovative team including Ruhaan Kalla, Saksham Jain, Aaditya Garg and Bhavit Grover made us proud by winning rolling trophy in DHANANJAY MOHAN SYMPOSIUM hosted by Amity International School, Noida. Ruhaan Kalla and Saksham Jain were awarded with first prize for E PAPER PRESENTATION. Aaditya Garg and Bhavit Grover bagged third position in project display on the topic of "SCION". The project aims to address India's local challenges by harnessing AI.

CONGRATULATIONS TO OUR SHINING STARS !!

Spotlight on Achievers

Our Junior Team Wins Championship Trophy in First Ridge Valley Inter-School Pro U-10 Boys Cricket Tournament

Our young cricketers brought great pride to the institution by securing the 1st Position in the First Ridge Valley Inter-School Pro Under-10 Boys tournament.

Ojas Goyal earned the Man of the Match title & the Best Bowler of the Tournament.

The team members are-

Viraj Yadav 5 D
Abhav narula 5D
Ojas Goel 5C
Reyarth 5C
Madhav Moon 5A
Omansh 5A
Madhav Tandan 5C
Rivaan Rathi 5D
Udeeksh 5C
Amay Gupta 5G
Trihaan Pahawa 6 F
Vivaan Pratap Singh 6C
Aarit Garg 5J
Kapish Kumar 5H
Yash Guglani 5F

Outstanding Achievement in Unified International Olympiad

Adwaita of Grade VII has secured National Rank 1 in the Unified International English Olympiad, demonstrating remarkable proficiency in English language. In recognition of his stupendous victory, the Unified council awarded him a medal, certificate and a laptop.

Sanskaar of Grade IX has achieved National rank 2 in the Unified International Math Olympiad. His strong Mathematical aptitude and problem solving abilities have earned him well- deserved National recognition. To honour his excellent performance, the Unified Council presented him with a medal, certificate and a Tablet PC.

Our Young Scientists On the Path to Excellence

We are extremely delighted to share that Nipun Dhawan from Class XI, has been selected for the prestigious INSPIRE MANAK award. This award is part of the Innovation in Science Pursuit for Inspired Research (INSPIRE) scheme, implemented by the Department of Science and Technology (DST), Government of India. The INSPIRE MANAK scheme aims to nurture innovation. He will receive a prize money of ₹10,000 to further develop his project .

His project MARS is an autonomous agricultural robot which reduces farmers dependence on manual labour and minimizes errors hence improving crop yield and operational intensity

CONGRATULATIONS TO OUR SHINING STARS !!

Junior Sports Meet: Unleashing The Champions Within

Junior Annual Sports Meet for Grades I–IV, centred on the theme “150 Years of Vande Mataram,” saw the spirited participation of 1148 students. The programme started with the ceremonial torch lighting and a vibrant “Namami Bharat” presentation.

Principal, Dr. Arti Chopra, highlighted the importance of sports in building discipline and resilience, while Sports Consultant Col. B. S. Ahluwalia inspired students with his motivating address.

Olympian swimmer Shivani Kataria, cricketer Aryan Kapoor, and Commonwealth Games champion wrestler Rajesh Kumar also graced the occasion as special guests. The Amitasha girls participated enthusiastically in flat races from KG to Grade IV, displaying remarkable energy and sportsmanship.

Parents added to the excitement with spirited participation in special races and a lively Tug of War. The event concluded with prize distribution ceremony.

Workshop on “Life Skills for Life Wins”

On 2nd February, 2026 an insightful and intellectually stimulating workshop was organised on 'Life Skills for Life Wins' for the students of Class VI. The workshop was conducted by Principal, Dr. Arti Chopra, whose valuable guidance, real life experiences and practical knowledge nurtured the skills that help in shaping character, behaviour and overall personality of a child. Through vivid PowerPoint presentation, stimulating videos, cognitively engaging graphic organisers and interactive student assessment questionnaires.

The session was engaging and the students actively participated in discussions, activities, and storytelling designed to improve their communication skills and critical thinking abilities. Group activities helped students understand the importance of cooperation, mutual respect, and collaboration. The workshop inspired the learners to understand themselves better and motivated them to improve their behaviour, communication, and attitude towards life.

Workshop on Communication Skills

A workshop on Communication Skills was organized for Class VII students on 3rd February, 2026. The workshop was conducted by Ms. Vandana Tandon. The resource person stressed on the importance of developing good communication skills in order to enhance one's personality and maximize the prospects of success. She underlined the importance of both verbal and non verbal communication. She emphasized the vital role played by body language in projecting one's personality. She spoke of the posture and movements that convey the projection of personality. It was a very fruitful workshop.

Picnic to Wild Vadi- An Amazing Learning Experience

On 20th February, 292 students of Grades I & II went for an exciting picnic to Wild Vadi. The children found this day buzzing with thrill and inquisitiveness, sharing smiles with their friends and teachers alike. The students thoroughly enjoyed a variety of water-based attractions, adventure zones, and engaging group games organized under the supervision of teachers. They also relished the healthy and delicious lunch served at the picnic spot. The entire day was full of laughter, excitement, and meaningful learning experiences which provided a refreshing break from the regular classroom routine .

Visit to Pradhanmantri Sangrahalaya: Delving into Glorious Past

Amitasha students of classes IV to XI along with three teachers and Academic Coordinator visited Pradhanmantri Sangrahalaya on 7th February, 2026. All the students were enthusiastically engaged in interactive activities including Virtual Selfie with PM, virtual Walk with PM, Bhavishya Ki Jhankiya (VR Helicopter Ride) which showcased major govt projects like Windmills of Tamil Nadu and Chinaar Railway bridge of Jammu & Kashmir, Suraksha Ride, which provided valuable understanding of India's defense services and significant national milestones. Our students received a special letter from the Hon'ble Prime Minister for Amitasha Foundation. This proved to be an enriching opportunity for them.

Kiddies Kitchenette- A Mini Master Chef Extravaganza

On 27th of February, 2026, Kiddies Kitchenette organized for the students of Classes I and II, witnessed our young chefs donning their aprons to showcase their culinary skills in the 'No-fire Cooking Activity' by preparing Chocolate Ladoos. Under the able guidance of their teachers, the students followed step-by-step instructions, handled ingredients and utensils responsibly, and demonstrated creativity and teamwork throughout the activity.

The event aimed at promoting experiential learning and life skills. The activity not only enhanced their fine motor skills and coordination but also encouraged healthy food habits.

Asian Regional Round of the Space Settlement Design Program

Our students participated in the Asian Regional Round of the Space Settlement Design Program held in Bangkok from 30th January to 2nd February 2026. Collaborating with students from institutions including Lahore Grammar School, Shiv Nadar School, and teams from China, they worked together as Team Grumbo Aerospace on innovative space settlement design projects.

The participating students were Aaradhya Kaushik, Dishan Bakshi, Pradyut Verma, Kushagra Sethia, Shambhavi Vats, Soham Mukherjee, Mudit Sharma, Vanya Saluja, Vivaan Wadhwa and Tanishka Rajesh Arora. Our team came up at the runners-up position and will get a chance to resubmit their project for the International Final Round.

The students got valuable exposure to teamwork, cross-cultural collaboration, problem-solving, and innovation, making it an enriching global learning experience.

Future Ready Schools Workshop for GPSC schools at AISG 46

A professional development workshop titled “Future Ready Schools for a World of Coexistence – Innovating Minds, Nurturing Values and Global Citizenship” was organized for the teachers of GPSC Schools on 3rd February in our school . The workshop was attended by 34 teachers, who actively participated throughout the session.

The resource person for the workshop was Principal Dr. Arti Chopra. The session commenced with an enlightening discussion on the role of Artificial Intelligence in 21st century education. The workshop strongly focused on a learner-centered approach, encouraging teachers to shift from traditional methods to innovative pedagogies. Special emphasis was laid on Bloom’s Taxonomy, guiding teachers on how to design learning outcomes that foster higher-order thinking skills. An engaging hands-on activity was conducted where teachers were divided into groups and asked to design and create a prototype, promoting collaboration, creativity, and problem-solving skills. Another activity based on Design Thinking was organized, during which participants were introduced to the concept of the Empathy Map, helping them understand learners’ needs, thoughts, and emotions more effectively. The advantages of digital education were discussed in detail, highlighting how technology can personalize learning, enhance engagement, and prepare students for global citizenship. Useful AI-based educational tools such as DiscoLingo.com, MagicSchool.ai, and KhanAcademy.org, demonstrating how these platforms can support teachers in lesson planning, assessment, and differentiated instruction, were introduced.

Insightful Session on Re-imagining Pedagogy

On 27th of February, 2026, an informative workshop was conducted for the teaching staff by Principal Dr. Arti Chopra, a renowned educationist and CBSE Resource person. The workshop focused on the need to make pedagogy student centered and thus explore gamification as a strategy for learning. She talked at length about the need to make education more dynamic by integrating technology, implementing personalized learning strategies, promoting learner autonomy, fostering collaboration and teamwork, and working on developing continuous evaluation. Learning styles were analysed and divided into visual, auditory and kinesthetic domains. The workshop concluded with the demonstration of various impactful learning strategies, shared by the groups of teachers.

Movie Trip - Grade IV Story Unfolded and Memories Saved

A movie outing was organised for the students of Grade IV on 25 February 2026, with 271 students participating in the excursion. They watched the film *Paddington in Peru*, which highlighted values such as friendship, courage and teamwork. The trip provided a refreshing break from the classroom routine and an enjoyable learning experience for the students.

A Day at Heritage Transport Museum

The students of Grade IV visited the Heritage Transport Museum on 17th and 19th February 2026 as part of an experiential learning programme.

During the guided tour, students explored galleries displaying vintage cars, bicycles, rail models, aviation and maritime exhibits, along with sections tracing the evolution of transport in India. Interactive displays and a short documentary further enhanced their understanding of technological advancements in transportation.

The visit providing students with a meaningful learning experience beyond the classroom.

Astronomy Workshop – Evening Skywatch Session

An engaging Astronomy Workshop was conducted for the students of Primary School on 26 February 2026 from 5:30 PM to 8:00 PM at the school campus in collaboration with Friends of Space. The session aimed to promote experiential learning in astronomy and sky observation.

Students of Grades I and II were introduced to the phases of the Moon through interactive explanations and visual aids, followed by telescope observation of the Moon and bright stars.

Students of Grades III–V revised the lunar phases, created posters, and conducted a hands-on experiment to understand the formation of lunar craters. The workshop concluded with telescope observation of the Moon and visible constellations, making it an engaging learning experience for students.

Round Table Meetings of Parent Forum

Parent Forums for grade I-XII , conducted on various dates from February -March 2026 , proved crucial for fostering a collaborative partnership between parents and educators. The meetings were convened by Principal Dr. Arti Chopra in the presence of Headmistress, coordinators, counsellors, class representatives, and parents. The meetings provided an interactive platform for parents as they mainly focussed on Amity curriculum, provision of ample learning material , Amitranet, Teams interaction, Co- curricular activities, assessment, safety in campus, counselling, teacher accessibility and discipline as well. Many parents appreciated the opportunities provided to students. They expressed their confidence in the safety measures taken by the school and they were all appreciative of the guidance given by the school counsellors on issues related to academics and emotional behaviour of the students

Parents of senior students from IX-XII expressed sincere appreciation for the structured guidance and continuous academic support provided for preparation of Board examination. They conveyed their gratitude to the Honourable Chairperson Ma'am Dr. (Mrs.) Amita Chauhan's inspiring and heartfelt address at the Citation Ceremony, which left a lasting impact on parents and students alike. It was shared with pride that students are diligently following the BHAAG formula introduced by the Respected Founder Sir. They appreciated the school's commitment to promoting Indian culture and values through practices such as Havan and the Blessing Ceremony, emphasizing character building and holistic development. The overall interaction reflected a strong sense of gratitude, trust, and partnership between the school and parents.

Rocksport Adventure Camp

The Rocksport Adventure Camp for Grade V was held on 21st February 2026 within the school premises, with 128 students participating enthusiastically. The camp, conducted by Rocksport Adventure, began with assembly and group distribution, followed by a range of adventure and team-building activities.

Students participated in activities such as Commando Net, Sport Climbing, Body Zorb, Roller Zorb, Burma Bridge, Rope Ladder Climbing, Laser Beam, Tug of War and other camp games. The programme aimed to build confidence, teamwork, leadership and focus among students.

Conducted under the supervision of trained instructors and teachers, the camp ensured strict safety measures and concluded with the distribution of participation certificates.

Orientation Programme For New Parents

Orientation Programme on 13 March 2026 for the parents of new students from Grades II to IX and XI for the academic session 2026–27, aimed to familiarize parents with the school’s vision, values, academic framework, and the collaborative role parents play in the holistic development of their children.

This occasion commenced with the ceremonial lamp lighting followed by “Dev Stuti,” a semi-classical dance performance, which added grace and spiritual essence to the occasion and was highly appreciated by the audience. Principal, Dr. Arti Chopra spoke on “Amity Parent Orientation – Roles, Expectations and Shared Commitments.” In her address, she elaborated on the Amity ideology, values, and the importance of a strong partnership between parents and the school. She emphasized that meaningful collaboration between educators and parents plays a vital role in nurturing confident, responsible, and well-rounded learners. Following the Principal’s address, the Academic Heads, Coordinators, and key members of the administrative team were introduced to the parents and interacted with them. This informative and engaging programme concluded with a formal Vote of Thanks, expressing gratitude to the school leadership, teachers, and parents for their participation and support.

Capacity Building Programme on Mental Health & Wellness

On 14th March, Capacity Building Programme (CBP) on “Mental Health & Wellness” was conducted for the teachers. The programme aimed at enhancing teachers’ understanding of mental well-being and equipping them with practical strategies to support both their own mental health and that of their students.

The workshop was facilitated by two esteemed CBSE-certified resource persons, Ms. Kavita and Ms. Kiran Yadav, who shared valuable insights and practical approaches related to emotional well-being, stress management, and creating a supportive learning environment.

The programme included interactive discussions, reflective activities, and practical examples, enabling participants to engage actively and share their experiences. Teachers gained valuable insights into identifying signs of stress among students, promoting resilience, and fostering a balanced and healthy school environment.

The session proved to be highly enriching and insightful, leaving participants better equipped to address mental health concerns in the classroom and contribute to a more compassionate and supportive educational ecosystem.

SPARDHA (2025-26) – Grade IX & XI

Celebrating fitness, teamwork, and dedication the Annual Sports Day- SPARDHA, for Classes IX and XI was conducted with great enthusiasm. Students from the four houses—Alaknanda, Mandakini, Bhagirathi and Pawani—participated enthusiastically in various track and field events.

The competitions included the 50-metre race, 4×100 metre relay, long jump/standing broad jump and shot put. The ground resonated with energy as students displayed speed, strength and coordination while cheering for their respective houses.

The winners and runners-up were felicitated by the Principal, Dr. Arti Chopra. For Grade XI, Darsh Kashyap and Saesha Mathur and for Grade IX, Arnav Goel and Janvi Dhawan, were adjudged as the Best Athletes in the Boys' and Girls' categories respectively.

Amity Chhatra Sansad 2025–26

Demonstrating exemplary research and leadership, our students participated in the Amity Chhatra Sansad 2025–26 held on 3–4 February 2026 at Amity University, Noida. The two-day parliamentary simulation brought together 340 students of Classes VI–VIII from Amity schools across India.

Delegates engaged in committees such as Lok Sabha, MCD, Panchayati Raj, NITI Aayog, and the Historic Constituent Assembly, debating significant national issues with confidence and insight.

Our delegation secured 9 individual awards along with the prestigious Best Delegation Award, making the event a proud and enriching experience.

Our Juniors Emerged as Champions in Inter Amity Heritage Quiz 2025–26

The Inter Amity Heritage Quiz was held on 28 January 2026 at Amity International School, Saket, with participation from around 10 Amity schools across Delhi NCR. Students of Classes IV–XI competed on the theme “Four Union Territories of India – Andaman & Nicobar, Lakshadweep, Ladakh and Pondicherry.”

The event began with a preliminary round for Junior, Middle, and Senior categories, followed by the finals for the top six teams. Each quiz featured audio-visual, bounce-pounce, and buzzer rounds.

Our school secured 1st place in the Junior Category and 2nd place in both Middle and Senior categories, making it a proud and enriching achievement for all.

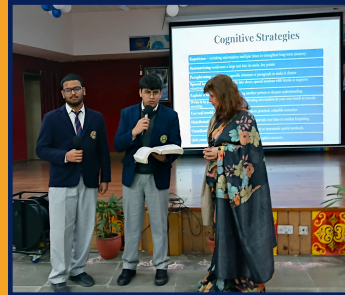

Student Success Toolkit: Time, Mind & Well-Being

On 16th February 2026, an interactive workshop was conducted for Grade XI students by Principal Dr. Arti Chopra.

Students discussed challenges such as digital distractions and self-doubt, leading to a solution-focused dialogue. The session introduced practical strategies for time management, effective learning techniques, and holistic well-being, including goal setting, prioritisation, spaced learning, and mindfulness practices.

Through activities and self-reflection, students gained valuable insights to enhance focus, resilience, and academic performance, making the workshop meaningful and enriching.

Capacity Building Programme on Theory of Knowledge

A Capacity Building Programme on Theory of Knowledge (TOK) was conducted at our school with 60 teachers in attendance. The session was led by Dr. Sanjay Kumar and Sapna Behl, both experienced educationists.

The workshop focused on understanding TOK as a process of inquiry, reflection, and justification rather than mere accumulation of facts. Trainers highlighted keyways of knowing, including testimony, comparison, visual interpretation, reasoning, and experience.

Teachers explored strategies to promote inquiry-based learning and critical thinking across subjects, making the session both enriching and practically relevant.

Inter-House Activities 2025–26

The academic session 2025–26 featured a dynamic calendar of Inter-House activities, with Mandakini, Alaknanda, Bhagirathi, and Pavani Houses competing with remarkable enthusiasm and teamwork. The platform continued to nurture leadership, creativity, collaboration, and resilience beyond academics.

Students showcased their talents across literary competitions, cultural and creative events, and a wide range of sports activities, reflecting confidence, discipline, and true sportsmanship.

Based on overall performance throughout the year, Mandakini House was declared the Champion House of the Year 2025–26, marking a proud culmination of dedication, unity, and consistent excellence.

Celebrating Indian Heritage Through Class Presentation

The richness of the cultural heritage of India was celebrated joyously through class presentation by Grade I students, on 12th March 2026. The programme commenced with ceremonial lighting of the lamp, followed by a cheerful Welcome Song – “Hum Toh Hai Taiyaar”, setting an enthusiastic and joyful tone for the programme. Principal Dr. Arti Chopra shared her insightful thoughts, highlighting the values and Indian Culture and encouraged everyone with her motivating words. The main presentation was the highlight of the event, where the students took the audience on a colourful journey across different states of India like Maharashtra – The Land of Warriors, Gujarat known for Garba, Grace and Glory, Haryana and Rajasthan – for Rhythm and Royalty, Uttar Pradesh – The Heart of Indian Heritage and Punjab – The Land of Turbans, highlighting the matchless energy, joy and lively spirit of Punjabi culture. The programme concluded with a lively Grand Finale, where the students came together in colourful attires and rocking moves that stole the show. Ms. Sumity Kapoor, Headmistress – Primary Block, in a note of thanks, expressed gratitude to the Chairperson, Principal, parents, teachers and students. The event concluded with the Vote of Thanks by Ms. Sumity Kapoor, Headmistress – Primary, who expressed gratitude to the Chairperson, principal and parents for their support. The programme ended on a patriotic note with the School Song followed by the National Anthem.

ULLAS – Bagless Days Presentation

‘ULLAS – Bagless Days Presentation’, organised on 19th March turned out to be a vibrant and engaging event where students from Grades I-IV got a platform to showcase their diverse talents and skills in a joyful, stress-free environment. To ensure maximum participation and involvement, the event was streamed live, allowing parents to witness and celebrate their children’s performances from the comfort of their homes. There was 100% participation from the students of Grade I to 4. More than 385 parents witnessed the event online.

The event commenced with a warm welcome by Principal, Dr. Arti Chopra, who addressed and motivated the parents, emphasizing the importance of holistic development and experiential learning through such initiatives. From the soulful melodies of ‘Sur Sar’ to the rhythmic charm of ‘Rhapsody’, a Western musical rendition, each presentation captivated the audience. The stage came alive with ‘Expressions’, a musical theatre act that highlighted creativity and storytelling, while ‘Blissful Harmony’ showcased the importance of yoga, promoting inner peace, balance, and mindfulness among young learners. The spirit of unity and patriotism was brilliantly portrayed through a fusion dance performance. The energy soared high with ‘Vibing on Beats’, an aerobics performance, followed by ‘Razzmatazz’, a lively blend of Western and freestyle dance. Overall, the presentation was a true celebration of talent, creativity, and holistic learning, leaving both parents and teachers proud of the students’ remarkable performances.

Le Temps Est Précieux

Le temps s'écoule sans jamais attendre,
Il faut apprendre à bien le comprendre.

Il passe vite, sans faire de bruit,

Chaque jour, chaque nuit.

On ne peut pas le garder en main,

Ni le revoir revenir demain.

Alors travaillons avec soin,

Car le temps décide de notre chemin.

Chaque heure compte dans la vie,

Pour réussir ce que l'on choisit.

Respectons-le à chaque instant,

Et l'avenir brillera longtemps.

Ridhaan Talwar, IX- F

Notre Belle Nature

La nature est belle chaque matin,

Elle éclaire nos vies et nos chemins.

Les arbres verts montent vers le ciel,

Les fleurs s'ouvrent sous le soleil.

Les oiseaux chantent à l'aube claire,

Leur voix remplit l'air de lumière.

Le vent murmure dans les champs,

Il parle doucement au cœur des gens.

Les rivières dansent sans détour,

Elles avancent lentement jour après jour.

La terre nourrit chaque graine,

Elle nous offre l'espoir sans peine.

Nous devons aimer et protéger la terre,

Elle est fragile et sincère.

Gardons l'air pur et l'eau limpide,

Pour un futur calme et solide.

Avyaan Talwar, IX- G

Les Quatre Saisons

Au printemps, les fleurs fleurissent,

La saison est magnifique,

C'est comme un nouveau départ,

Chaque matin ressemble à de la musique.

L'été apporte la chaleur,

Le soleil brille sur les enfants,

Il fait chaud, on mange de la glace,

Tout le monde est content.

L'automne est la saison du changement,

Le temps devient beau,

Les feuilles tombent des arbres,

C'est un début nouveau.

En hiver, le froid est fort,

Les nuits sont longues vraiment,

Tout est blanc à cause de la neige,

Le monde repose seulement.

Aanya Jain. IX- G

A Sunny Day

The Sun was very hot,

I drank a lemon shot.

My baby brother slept in his cot,

So we made some yummy pasta in the pot!

Avni Bhatnagar, I- H

POETIC EXPRESSIONS

An Open Book

How easy it would've been
If we could miss some paragraphs
Skip few chapters
Hold on to perfect pages
Tear ones with imperfect days
Annotate the best
Scribble over the worst
Close the book when felt low
Hide it between the racks
No one would know
How easy it would've been
If we could write a new story
Each time we felt lost
Each time we felt broken
Each time we felt sad
Each time we were forced to read
when the story yearned a conclusion
The pages never stopped turning
It never truly never ends
The book remains open

Ishita, XI- I

Fable Fate

To and fro, inside my head
Where will I be led?
Comin thoughts constant
About what path to take
Future make or break
Living dilemma in my mind
Answers I want to find
But ups and downs are bound to be
Trying to make my brain understand me
Will I be following a path already tread?
Or one where a leaf never shed
Can I get a little sneak peek?
Just let me know
Is it going to be easy or steep?
Just a little sneak peek
Do I still have a smile?
Even after all those miles
Happy do I look?
A secure future do I book?
Will I follow a path that's already tread?
Or one where a footprint never met

Aarna Pahuja. IX- F

POETIC EXPRESSIONS

Season of Change

In the autumn season, it's a heavenly sight
Sunlight flowery fragrance and fresh moonlight,
Rains are leaving, winter is coming,
Birds are chirping, bees are humming.

Leaves keep shedding from the magnificent trees,
Along they go, fluttering in the breeze,
The season is bathing in Diwali's bright light,
And Halloween's eerie night, full of tricks and
frights.

Autumn is a season of leaves, red and brown
Glittering and floating till the sun goes down,
The weather is pleasant, not too hot, nor cold
In the cool winds, all leaves and branches fold.

Mishita Rastogi, VII- D

मौसमों की मीठी लड़ाई

गरमी बोली, मैं सबसे बड़ी
मेरी धूप से लगी यह पसीने की झड़ी।
बरसात बोली मत यूँ इतराना
मेरे बिना तय है धरती का सूख जाना।
पतझड़ आकर हँसकर बोला,
पत्तों संग मैं झूमू अलबेला।

Eeshani Khetarpal, 2- A

Soft Sandy Anthill

Once, on a beautiful, and sunny day,
The basketball slipped out during play,
My friends told me to follow the ball,
But now and then, what could I say?

It rolled past the slide and seesaw,
But then I stopped, and I saw,
An anthill made of soft sand,
And ants beside, carrying some straw,

I paused in wonder, looking at the hill,
Suddenly, I felt some sort of thrill,
I forgot the ball, and it rolled downhill,
But I was praising the ants' skill,

Then someone screamed from behind,
I remembered the task assigned,
I ran, with the hill in mind,
Wondering if there was more of its kind,

I caught the ball, and saw my friends,
Waiting at what seemed, the world's ends,
I ran to them, and we resumed playing,
And I forgot what I was supposed to be saying.

Anya Anuva Khatua, V- D

The Kids Who Always Used to Fight

The kids who always used to fight.

Fighting, fighting day and night.

With not even a reason, Fighting all season.

Missing all the fun when the kids play in the sun.

Then the teacher knew what to do.

She had an idea that was true.

Then she went to the kids who always used to fight.

When they heard that they held their hands tight.

Navya Sinha, II- E

POETIC EXPRESSIONS

ए आई की नई दुनिया

एआई की सुनो कहानी,
तकनीक बनी अब बहुत सयानी।
मोबाइल, कंप्यूटर सबमें रहती,
जल्दी-जल्दी बातें करती।

सवाल पूछो, जवाब बताए,
पल भर में सब समझाए।
होमवर्क में मदद कर देती,
नई-नई बातें भी सिखाती।

डॉक्टर को भी राह दिखाए,
किसान की फसल बचाए।
बड़ी मशीनें काम संभालें,
मुश्किल काम भी झट कर डाले।

लेकिन हमें यह याद है रखना,
सोच-समझ कर उपयोग है करना।
एआई अच्छा साधन है पर
इंसानी बुद्धिमत्ता का दर्पण है।

मनुष्य का विवेक और मशीनी रफ़्तार,
मिलकर रचेंगे एक नया इतिहास।
मत डरो बदलाव से, ये प्रगति का है नारा,
ए आई बनेगा तुम्हारी जीत का सहारा।

Yash Vats, VIII- A

Beautiful Flowers

Flowers Flower,
Waiting for the rain to shower.
Can't wait, can't wait
Don't be late.

Give me water,
Don't give it later.
No plastic
Makes me fantastic.

Oh! see
A bee on me.
And this butterfly,
Saying "Hi!"

I start with a bud
I grow, grow grow
Then I become a flower
With the help of shower

Namandeep Singh, III- C

सेहत

सुबह उठो व्यायाम करो,
अपने आलस को दूर करो।
रोज करो दाँत अपने साफ़,
गंदगी को दो तुम मात।
शौच जाओ रोज नहाओ,
स्वस्थ जीवन शैली अपनाओ।
फल, सब्जियाँ अगर खाओगे,
अच्छी सेहत तुम पाओगे।
साफ़ सफाई का रखो ख्याल,
वरना करोगे हमेशा मलाल।

Yashi Choudhary, VI- J

CREATIVE EXPRESSIONS

Chill, Cozy, and Captivating Phrases on Winter

Winter is coming: A phrase indicating that cold season is approaching, often symbolizing a challenging or harsh period.

A nip in the air: A slight, refreshing chill in the air, often felt during the early stages of winter.

Bone-chilling cold: Extremely cold weather that feels as though it penetrates to the bones, causing discomfort.

Dead of the winter: The coldest and darkest part of the winter season, often implying inactivity or stillness.

Snowed in: Being unable to leave a place because of heavy snowfall blocking the way.

Snuggle into layers: Wrapping yourself in multiple warm layers of clothing or blankets to stay cozy.

Toasty warm: Feeling pleasantly warm and comfortable, often in a cozy indoor setting during cold weather.

My School Picnic

On 20th February, I went to Wild wadi, Gurugram for my school picnic. First, we had to wear an entry band and then we went inside. After going inside, we saw models of Safari Jeep, Truck, Motorbike and Scooter. We sat on all of them and clicked photos. After that we went to a café and ate delicious noodles, sandwich and French fries. Then we went to swings and bouncy. It was too much fun! After that we went for a toy train ride, trampoline and adventure games. Thereafter we went for a puppet show. There, we saw a snake, snake charmer and dancing puppets. It was very entertaining. We sang while we waited for the boat ride. Then at last, we went for camel cart and bullock cart ride. It was a beautiful and memorable day.

My Wonderful Trip to Ujjain

During my winter vacation, I visited Ujjain with my family. We went there by car, and the journey was comfortable and fun.

About the Temple

Mahakaleshwar Jyotirlinga Temple is in Ujjain, on the bank of the Shipra River. It is one of the twelve Jyotirlinga temples of Lord Shiva.

What We Did There

The temple was very beautiful and peaceful. We put a yellow tilak with a Shiva mark on our forehead. I prayed with my parents and felt very happy.

Fun and Special Moments

We enjoyed boating in the Shipra River and visited other temples nearby. In the evening, we attended the aarti at Harsiddhi Mata Temple. The tall lamp pillars with many glowing lamps looked very beautiful.

My Travel on a Big Ship to New York

My name is Anvay Jakhar. I went on a big container ship named as Tucapel with my mom and dad. My dad is chief Officer in Merchant Navy. I was very excited to travel and to spend more time with my dad.

The ship was like a moving building on water. I saw water all around — no roads, no cars, only the big blue sea. Sometimes the waves were small, and sometimes they were big and splashy!

I saw beautiful sunrises and sunsets in the middle of the ocean. At night, the sky was full of bright stars. It looked like a dream.

On the ship, I saw big containers in many colors. They looked like giant toy blocks. I also saw birds flying near the ship when we were close to land.

After many days, we reached New York. I saw first snowfall of my life. I saw very tall buildings called skyscrapers. The city looked so big and busy. I was very happy and proud that I came to New York by ship!

It was a wonderful journey, and I will never forget my trip on the big ship with my mom and dad.

Steve's love for food

Steve loved to eat. Not politely, not quickly, but joyfully. He tasted mornings in toast and evenings in soup. When he walked, bakeries noticed. When he laughed, spoons followed.

One day, Steve decided to cook. He chopped, stirred, burned, and tried again. The kitchen filled with smells that felt like hugs. Neighbours knocked, friends arrived, plates emptied.

Steve ate last, smiling hardest. He realized food was never just food. It was a way to gather the world closer.

Steve kept cooking after that night. He learned which herbs whispered and which shouted. He learned patience from slow stews and courage from sharp knives. His table grew bigger. Strangers became regulars, regulars became family.

My Thank You Note

Teachers are the real heroes of our life. They help us grow and in fostering our skills. They also help us groom for our journey in life and sharpen our cognitive ability. They are with us in our highs and lows. Their motto is to never let us down. Teachers are like a mother figure to us. They light the candle of knowledge, eliminating the darkness within us. They are just like fearless warriors winning every battle. It is a wonder how they compose their calm demeanour especially with some students who annoy them a lot. Teacher's Day is a day dedicated to them to let the world know how brilliant they are. They shine as bright as the stars in the sky. So, to all the teachers who are working day and night a big thank you and heartfelt gratitude from all of us.

Why Human Connection Matters?

We live in a time where technology is everywhere. From smartphones and laptops to social media apps, we are always connected to the internet. We attend online classes, play online games, send messages, and watch videos for hours. Technology has made our lives easier, simpler and faster. Although we are all connected digitally, we need to connect with people and with nature. Human connection means talking face-to-face, sharing feelings, and supporting one another. This bond can never be replaced by technology or screens. I personally believe one shouldn't stop using technology, but use it sparingly. Everything should be done within limits. What's more precious than bonding with loved ones, sharing laughter, and making memories with family and friends? Why can we not create some joyous and unforgettable moments for all around us? In this digital age, human connection will give us strength, happiness, and a sense of belonging adequately.

A joyous celebration of togetherness

Under the leadership of Dr Amita Chauhan, Chairperson, Amity Group of Schools, and the guidance of Dr Arti Chopra, Principal, Amity International School, Sector-46, Gurugram, the school organised a vibrant Winter Carnival 2026, transforming the campus into a lively space of colour, music, and festive cheer. The event brought together students, parents, and teachers, fostering community bonding and celebrating creativity beyond the classroom.

Decorated stalls offered festive delicacies, handmade crafts, and fun merchandise, while games, rides, a mini-Ferris wheel, bouncy castle, nail art, and face painting kept

the atmosphere buzzing with excitement. The stage featured energetic dance performances blending contemporary and traditional music, along with lively renditions by the school's Western Band.

A winter-themed fashion show, where students walked the ramp with their parents, added glamour to the celebration. The Talent Hunt and raffle draw further heightened enthusiasm. The carnival strengthened bonds within the school community and reflected its commitment to holistic development and joyful learning.

Innovation with impact

With the aim of fostering a scientific temperament among young minds, the "Dhananjay Mohan Symposium", themed Science Serving Humanity, was hosted by Amity International School, Noida.

The event brought together participants from various schools who presented innovative working models and investigation-based projects. It also featured e-paper presentations.

Jay Mohan Rolling Trophy, securing first position overall. Ruhaan Kalla and Saksham Jain won first prize for their e-paper presentation, while Aaditya Garg and Bhavit Grover secured third position in the project display category.

The projects aimed to address India's local challenges by leveraging AI-driven solutions. The judges applauded the students' novel ideas,

Amity
INT'L SCHOOL

Under the leadership of Dr Amita Chauhan, chairperson, Amity Group of Schools, and the guidance of Dr Arti Chopra, principal, Amity International School, Sector 46, Gurugram, the school participated in the Amity Chhatra Sansad 2025-26 at Amity University Noida.

Discussions centred on key issues including art and heritage preservation, water waste management and cleaning of the Yamuna, village development fund allocation, budgeting and prioritisation, Atmanirbhar Bharat in defence and aerospace.

Amity International School, Sec-46, Gurugram

10 representatives from the school included Aaradhy Kaushik (IX), Dishan Bakshi (X), Pradyut Verma (X), Kushagra Sethia (X), Shambhavi Vats (IX), Soham Mukherjee (XI), and Medha Sharma (IX).

Empowering minds, enriching lives

1. What is your school's vision, and how does the curriculum support it?

We envision a happy, safe, and inclusive school that nurtures kind, self-aware students into empathetic, creative, and future-ready global citizens. To achieve this, we are strengthening a learner-centred, future-ready ecosystem that promotes individualised instruction, life skills, and environmental responsibility. Our internationally connected curriculum is supported by empowered teachers and a secure atmosphere. A collaborative network of parents, alumni, counselors, and community members ensures holistic development. An engaging teaching-learning process, supported by digital programmes, and entrepreneurial initiatives, equips students to thrive in a rapidly changing world.

2. How have you integrated NEP's key points into the school?

We have adopted outcome-based education with a strong focus on measurable learning outcomes. Our pedagogy emphasises experiential, inquiry-based, and problem-based learning, along with con-

Principal's Speech

days make learning more meaningful. Teachers complete 50 hours of Continuous Professional Development annually as recommended by NEP 2020. Through online collaborations, inter-school compe-

The CBSE term examination system clearly defines eligibility for improvement in three main subjects, provided students have appeared in all subjects in the first attempt. This clearly ensures transparency, fairness, and industry in assessment.

Yes, there has been a significant shift from rote learning to competency-based education. With NEP 2020 and the National Curriculum Framework (NCF), teacher training and activity-based learning have strengthened implementation.

Early Childhood Education now emphasises language, cognitive, socio-emotional, ethical, and physical development. The preparatory stage focuses on foundational literacy and numeracy. The middle stage promotes experiential, self-directed learning, and the secondary stage includes substantial higher-order thinking based on assessment. Integration of arts, sports, skills, and values has made education learner-centred, interdisciplinary, and outcome-driven.

3. How have you incorporated wellness and emotional intelligence programmes?

Wellness is embedded in our ecosystem through Quality Circle groups, the Assured Career Program, and community service projects. Fortnightly initiatives such as 'Smile' (emotional well-being) and 'Safe'
