

Respected Founder President Si Dr. Ashok K Chauhan , Respected Chairperson Ma'am Dr (Mrs). Amita Chauhan, Chief Guest, Guest of honour, honoured dignitaries, dear principals and officers from the Amity Group of Schools, respected parents, my fellow educators, and my dear students—good morning to all of you.

It is truly a pleasure to see all of you gathered here today for our **Annual Sports Day**. Days like these bring energy, smiles, excitement—and most importantly—a sense of togetherness. Along with celebrating sports, today also gives me the opportunity to share with you the **journey of Amity International School, Gwalior**, during the **Academic Session 2024–25**, and the encouraging beginnings of **2025–26**.

This year has been special—not because everything was easy, but because together we continued to move forward with purpose, discipline, and belief in our children.

A Year of Balanced Growth

At Amity, we often say that education is not only about marks and medals—it is about shaping character, confidence, and courage. Guided by our motto, “**Vidya Dadati Vinyam**”, we strive to ensure that knowledge leads to humility and wisdom.

The session 2024–25 was a year where **academics, sports, arts, leadership, and values grew side by side**. Our classrooms remained spaces of curiosity, our playgrounds echoed with determination, and our stages reflected creativity and confidence.

Our Inspiration

Behind every institution that grows with consistency is a guiding vision. We draw inspiration from **Dr. Ashok K. Chauhan** and **Dr. (Mrs.) Amita Chauhan**, whose belief in education as a nation-building force continues to guide the Amity Group. Their vision reminds us that while global exposure is important, values, discipline, and responsibility are non-negotiable.

Academic Excellence – A Matter of Consistency

I am proud to share that in **CBSE Class XII**, we achieved our **fourth consecutive 100% result**. This is not a coincidence—it is the outcome of focused teaching, regular mentoring, parental support, and the sincere efforts of our students.

Our **Class X students** too recorded a **100% pass result**, with a healthy number of distinctions and consistent performance across subjects. These results tell us one important thing: when children are guided with care and clarity, they rise to expectations.

Learning Beyond the Classroom

But learning at Amity does not stop at textbooks. Our students actively participated in **science competitions, Olympiads, innovation platforms, and exhibitions**. Achievements in initiatives like **The Wild Wisdom Global Challenge, MANAK INSPIRE**, and **Gwalior Vigyan Mahotsav** show that our students are learning to think, question, and innovate.

Participation in **external examinations** such as the **Hindi Olympiad, Vidyarthi Vigyan Manthan, Green Olympiad, Unified Council Olympiads**, and **SilverZone Science Olympiad** gave students exposure, confidence, and a wider academic perspective.

Cultural and Performing Arts

Our belief in holistic education is incomplete without the arts. This year, our students brought pride to the school through **music and dance achievements at national and international platforms**. Success in classical music certifications, singing competitions, and international dance events reflects not only talent, but discipline and perseverance—qualities that stay for life.

Sports – The Spirit of Today

Today, as we celebrate **Annual Sports Day**, I want to pause and appreciate the role of sports in our school life. Sports teach lessons that no textbook can—teamwork, resilience, respect, and the courage to try again.

During the session, our students participated in **inter-school, district, state, and national-level sports competitions**, earning medals and recognition in **skating**,

swimming, badminton, taekwondo, basketball, cricket, football, and team events.

Whether a student stood on the podium or not, every child who trained, practiced, and competed is a winner in my eyes.

The Amity Advantage

What truly sets Amity apart is the **Amity Advantage**—a learning ecosystem that prepares children for life. Through the **Amity Children's Science Foundation, The Global Times, Language Enhancement programmes, Cambridge English qualifications**, leadership platforms like **MUN, Youth Power Programme, and Chhatra Sansad**, along with academic enrichment and career guidance, we ensure that our students are not just exam-ready, but **future-ready**.

A Promising Beginning – 2025–26

I am especially happy to share that the **current academic session 2025–26** has begun with great promise. Our students have already achieved success in **art competitions, district and state-level sports events, and national-level participation**.

Early achievements in **badminton, swimming, basketball, skating, cricket, football**, and creative arts reassure us that the culture of excellence continues—and grows stronger.

Recognition and Gratitude

This year also brought recognition at the leadership and institutional level. I am grateful for honours such as the **Dr. Sarvepalli Radhakrishnan National Principal Award, Pride of Nation Award, and the EDex Award for Visionary Leadership**. Our school was also recognised with the **Patrika Expertise Award** as the **Best School in Gwalior**. These recognitions belong to the entire Amity family.

I thank our **management** for their constant guidance, our **teachers and staff** for their tireless efforts, and our **parents** for their trust and partnership. Above all, I thank our **students**—you are the heart of this institution.

Looking Ahead

As we move forward, let us continue to believe in our children, encourage them to explore, and support them when they fall. Together, we will keep building not just successful students—but **good human beings**.

I wish all our young athletes a joyful and energetic Sports Day.

Thank you and have a wonderful day.
