### PAUSE TO PONDER

**United we stand,  
together we work**

The school resounded with ... "We the people of India ...while the Preamble was being read on the Constitution day . It fills one with immense pride to be a part of this great nation. The sacred words. Justice, liberty, equality echo in the mind and make one reflect upon equality of thought, expression and belief .

Is liberty of expression taken so seriously that we start to question each other on the responsibilities easily forgetting the duties we the people of India have .

When we question each other as to whose responsibility it is to provide clean air and clearly forget our duties .In this struggle for fixing responsibilities and finding answers can't we the citizens of India stand together and perform our duties by spreading awareness on how to reduce pollution. Can a nation of 1.3 billion plant a sapling each and see the difference ,we the people make by tirelessly striving to transform the dreary land into lush green India where we can move without fear of breathing with our head held high.

ANSHU BHATNAGAR

## FOUNDER'S DAY SCHOLARSHIP AWARD CEREMONY

**Founder's Day Scholarship Award Ceremony**

Amity International School, Mayur Vihar celebrated Founder's Day Scholars' Award Ceremony on 13 November 2019. This distinguished occasion was graced by Chairperson RBEF, Dr Mrs Amita Chauhan with her benign presence. The event was also attended by Advisor R& D Mr B N Bajpayee, Academic Advisor Mr Stalin Malhotra , Ms Renu Singh , Principal of Amity Noida and the proud parents.

Welcoming the esteemed dignitaries, Principal Mrs. Meenu Kanwar, apprized the distinguished gathering about the outstanding performance of the students and affirmed her commitments to inculcate the values and ideals of the Founder President in the Amitians. The immensely talented students presented a repertoire of cultural programme reflecting the Founder President's formula of triple excellence. It was followed by the distribution of scholarships, badges and certificates to the meritorious students. The august gathering was spell bound by the enthralling classical dance , group song , solo singing and thought provoking slam poetry. It was followed by the distribution of scholarships, badges and certificates to the meritorious students of classes VI to XII.

Honourable Chairperson motivated the students with her words of wisdom and redeemed her commitment to encourage , enable and empower the students in all spheres of life. While interacting with the august gathering, she said that success can be achieved with the help of BHAAG, the Philosophy propounded by respected Founder President Dr Ashok K Chauhan which stands for Behavioural Science, Hardwork, Attitude, Ambition and God. Ma'am applauded the constructive role of parents in developing a child's personality. The programme concluded with the school song and the national anthem.

# THEATRE / MOVIE REVIEW

## Rock Sport

## THEATRE : A MULTITUDE OF TALENTS

Theatre is a unique platform to express your creativity. The live performance of the artists leaves you awestruck. Recently, I went to watch a play titled 'Mahabharat' at Kamani Auditorium. It was depiction of Mahabharat from the perspective of Duryodhan. The role of Duryodhan was played by the famous actor Puneet Issar. He also directed the play.

The mannerism of audience is quite different in theatre. The audience is suave and generous with appreciation yet gentle. The props, costumes, music and IT enabled back drops were the highlight of the play. The power packed performance left me spell bound. It was not only entertaining but also a great learning experience. Delhi's theatre scene is quite happening .

## Book Review : Wonder

**R.J. Palacio**

*"My name is August. I won't describe what I look like. Whatever you're thinking, It's probably worse."*

While reading this book I was taken on an incredible emotional journey. The book is heartfelt and refreshing. The book is about a 10-year-old boy, August who like any young boy loves ice cream and riding his bike but despite 27 operations he will never look normal. August is unlucky to have a double dose of a mutant gene that prevents him from leading a normal life with his family. The book details the family's decision to enrol August in a school which delves into complex emotions and complex relationship in simplistic language.

The author not only dives into August's story but also of his protective sister and has done full justice to the simple story of a family faced with a tough decision.

The author provides a realistic look at the brutality of the world but suffused with love and goodness which makes us appreciate the goodness of the world and provides hope and inspirations.

I really recommend this book if you are looking for a heart-warming and motivating book with simple language which can even attract non-readers.

## SPELL BEE QUIZ

English spelling system is not at all predictable. Some words are spelled according to phonic sounds some need to be memorized. To make word memorization fun and playful, Amity International school Mayur Vihar organized a nail biting inter house spell bee quiz. In the quiz different class groups had different rounds. All team members participated with great zeal and enthusiasm. It made memorizing spelling fun. At the end Mandakini house won the quiz competition and Coordinator Ms. Jasleena Kohli applauded their efforts and presence of mind.

## ROCKSPORT ADVENTURE CAMP

‘Adventure sports for students are highly motivational and practical which are unlikely to be seen from the normal classroom environment.’ In order to inculcate different life skills, Amity Mayur Vihar organised an adventure Camp in the school campus, for the students of classes 1 to 5 on 19th and 20th November 2019 .

These activities aimed at maintaining fitness level and the physical mental balance of a student. The students were divided into groups and each group was assigned a group leader. The children gained new perspective as they got to face different obstacles in the form of activities like Burma Bridge, Commando Net, Tyre Maze, Zip lining, Wall Climbing, Zorbing, Tug of War etc. These activities aimed at building team spirit, friendship and trust amongst each other. It was a fun filled day and the students made memories to be cherished forever.

## ENCHANTED FOREST - Aarav Yadav 2 A

One day I woke up, I was in an enchanted forest. The enchanted forest was very shiny. The mountains were colourful, They were shining like pearl. The land and the grass was golden. Then I saw a colorful hyena, who was crying in pain. I was very sad about him. Suddenly a medicine box came there, I applied some antiseptic on his wound and he became fine. Then we were thirsty. We went to the river which was golden. We drank that potion and we grew tall and tall. When I was hungry, I went to tree house and I ate a carrot it tasted like a mango! I was surprised. Then I saw that the sun changed its colour, it became pink and the sky became yellow. I was shocked, because when I said “rain” it started raining and when I said “cold”, it started snowing . Then my mother woke me up, it was morning and it was time to go to school. It was just a dream which was very real.

## Founder's Day Scholarship Awards

### Children's Day in different countries

Did you know that Children's Day is not only celebrated in India, but in other countries as well like USA, Australia, Mexico and many more.

While in our country it is celebrated on 14th November, because of the birthday of Jawaharlal Nehru, in other countries it is celebrated because of different reasons.

The United States has selected first or second Sunday of the month of June to celebrate the spirit of children who are the future of the nation. It also marks the whole week as the Family Week.

Australia has declared Children's Day on the first Sunday of July, while it celebrates the last week of October as Children's week. It holds cultural activities on the occasion and collects funds for the disadvantaged kids by selling cards for the day.

Before its unification, Germany had two days on which Children's day would be celebrated. Now most parents celebrate the day on June 1.]

However in Mexico, the occasion, which is known as "El Dia Del Nino" is marked on April 30. This day children go to school to attend a fiesta and are given gifts by the school authorities. They also participate in a special parade organised for them.

In Singapore, it's October 1 which is a holiday for kids and every school celebrates it in a different way by organising fairs, cultural programmes and parade.

### AN OPEN LETTER TO CITIZENS

#### My Fellow Citizens

The biggest challenge that our country is facing in the present times is that of pollution. The haze that defines the skyline of Delhi is keeping the health of citizens for ransom. The repercussions can not be felt in totality at the moment but the warning bells have been rung. The beautiful and pristine environment that was gifted to us by our ancestors has been brutally marred by human greed and carelessness. This heirloom was a legacy that was to be passed on to posterity has been plundered by the selfishness of humans.

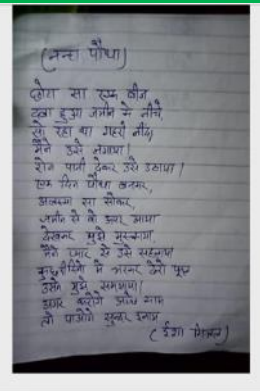

Enough has been said, the blame has been passed from one conscientious group to another, the repeated failures of the authorities to deal with the situation has led to helplessness. Solution to a problem will only come when the blame game will stop. It is not important to know, "Who had done it?"

What is imperative is to look for the answer to, "What should be done now?" My Fellow Citizens, we should not add to the woes of our country. We should look forward to bring a change in our life style and attitude. We should all become the Green Warriors and leave the greatest of all wealths- clean air for our future generations. We must all invest in clean air by disinvesting our greed and indifference.

## MOVIE REVIEW MALEFICENT: MISTRESS

Genre: Action & Adventure, Science Fiction & Fantasy

Directed By: Joachim Rønning

Written By: Linda Woolverton, Micah Fitzerman-Blue, Noah Harpster

Review: In Disney's "Maleficent: Mistress of Evil," a sequel to the 2014 global box office hit, Maleficent and her goddaughter Aurora begin to question the complex family ties that bind them as they are pulled in different directions by impending nuptials, unexpected allies and dark new forces at play. The years have been kind to Maleficent and Aurora. Their relationship, born of heartbreak, revenge and ultimately love, has flourished. Yet the hatred between man and the fairies still exists. Aurora's impending marriage to Prince Phillip is cause for celebration in the powerful new alliance, Maleficent and Aurora are pulled apart to opposing sides in a Great War, testing their loyalties and causing them to question whether they can truly be family. It is a visually and emotionally exquisite tale that is simply beautiful.

## I LOVE MY SCHOOL LIFE - Pehel sharma 7C

School life is your best moment,  
and full of enjoyment.

Running around the school and incomplete notebooks  
are not our only nooks.

Though getting up at 7am is not so fun,  
but after reaching school,  
chasing each other under the bright sun,  
isn't that cool?

Going to carnival with friends and doing Columbus seven times,  
dancing on rock show instead of learning our play lines.

Laughing on others,  
but being with each other as brothers and sisters,  
is all that brings me happiness that can't be sold.

# RHYME REALM

## Spic Macay

## Inter House Spell Bee

Life just takes a second  
To turn up all those questions and  
problems  
That you have been avoiding lately  
The truth you never wanted to know  
because it tears you apart  
The "what will people say" phase  
The people who are not less than a  
snake  
The non-happy endings  
The unsaid goodbyes  
Are you scared of them too?  
Well you shouldn't be  
Why cant you play with them  
Just the way they play with your  
head and heart

**DEVANSHI PRABHAKAR 9B**

### THE UNFINISHED DANCE

I Danced Yesterday,  
and felt that maybe I was taking the  
wrong steps.  
I Danced Yesterday,  
and saw a great many eyes gawking  
at my every step.  
I Danced Yesterday,  
and thought 'maybe I shouldn't do  
this.'

I Dances Yesterday,  
and heard many a disgusted sounds  
ruining the music.  
I Didn't Dance Today,  
and I think that was my greatest  
mistake.  
For I didn't feel like myself,  
what I saw as I looked in the mirror  
was someone else.  
What I thought as I looked in the  
mirror was how despicable it felt,  
hearing my own voice coming from  
a mind  
so defeated that it could not possibly  
be mine.  
I Will Dance Tomorrow,  
but perhaps tomorrow might be too  
late.

**Yashaswini Sharma IX - B**

### "THE FOUR RULES OF LIFE"

Believe in yourself  
Believe in others.  
Being aware of the limitations  
And limits for your curious feathers.  
Believe is a word that means trust  
Trust all your surroundings with care.  
Believe that the world is positive  
Believe and trust but be beware.  
Education is another rule  
This can make you rule the world.  
This is the strongest and the immortal tool  
For everyone including girls.  
You can gain it from everywhere  
From rich or from a poor.  
In this nothing is small, nothing is big  
Cause you The third rule is passion,  
Find yours and secure it.  
It can be cooking, dancing or fashion  
Move further but don't ever quit.  
Make your passion your only goal  
The one that doesn't let you sleep.  
Let it be an immortal fire on coal.  
And for you it should be your grand supreme.  
The fourth rule is dream  
Dream about what you want to achieve.  
Shout, fight, work and scream  
To get what you want to weave.  
Dream is not what you see in sleep,  
It is the one which doesn't let you sleep.  
It is the one which brings you deep.

**CHAVI GAUTAM -VII-C**

### My Class 7 C

We all had different styles,  
Also missing our old friends.  
What did we know,  
Soon we will all blend.  
Plants we nurture  
They always thrive  
With our amazing teacher  
Who is a fascinating guide!  
Board of wellness  
Walls of hard work  
Filled with memories  
And a lot of laughter.  
Team coordination is our forte,  
We are the petals of a heather.  
We possess unprecedented team spirit  
Like birds of a feather.

### CRAZE OF SOCIAL MEDIA

Social networking sites such as Facebook and Twitter have become source of major distractions for students. Young boys and girls seem to have become inordinately addicted to these sites. They are thoughtlessly and uselessly wasting their precious time on these sites. Wise people say time well utilized is time well spent, but the youth of today is only and only wasting time on chatting, messaging, uploading photographs and modifying profiles. The smart phones and 4G connections have made the situation worse. Accessing such sites has become so easy that young boys and girls are using these sites almost everywhere and almost all the time. Similarly they wait for their favorite TV programs with intense longing. Many questions are for craze of social media like 'where will this lead to? Are we heading towards only Facebook and Twitter perfection? Where are the objectives of attaining the status of an advanced country?'

There are so many challenges that we face as a nation such as population density, poverty, unemployment, corruption, pollution, mismanagement of our natural resources, etc. It is a pathetic attitude of our youth to lose such objectives out of sight and instead waste their time and energy on such social networking sites recklessly.

Most of the students these days appear to be more worried about connecting to their friends on Facebook than being concerned about studies. The other major disadvantage of the increasing use of such networking sites is the spread of indecency that is having a very negative impact on the impressionable minds of our young children and leading them astray.

The parents, teachers (mainly) and the government must look into the problems being caused by these networking sites and must formulate a strategy either to curb or completely stop its fast growing negative influence on the minds of our youth. Our youth is the future of our nation. We cannot allow this youth to waste their precious time on the Facebook. The same time spent on social media must be spent on studying, researching and developing leadership or other life-skills. It is our moral duty as well as our responsibility to lead our youth on the right path. Efforts should be made in making our youth, especially the school students, aware of the disadvantages of such social networking sites. The authorities should implement some strict regulatory checks on the functioning of such networking sites in our country. Only with concerted efforts of parents, teachers and the government, this problem of addiction of our youth to networking sites can be removed
