Pause to Ponder

'A Teacher affects eternity ; he can never tell where his influence stops.' Indeed, the teacher has the greatest influence in shaping young minds just as the sculptor gives shape to clay, across all ages and the world over. Apart from immediate family, teachers are truly the second largest influence on the lives of children, building in them core values of compassion and generosity along with imparting the necessary life skills. Thus the teacher-student bond is one of the most precious bonds cherished by both teacher and student.

P.ROHINI
ENGLISH FACULTY

PRINCIPAL'S MESSAGE

Dear Students,

‘गुरुर्ब्रह्मागुरुर्विष्णुर्गुरुर्देवोमहेश्वरः

गुरुसाक्षात्परब्रह्मा तस्मैश्रीगुरुवेनमः’

Meaning : Guru is the Creator (Brahma), Guru is the Preserver (Vishnu), Guru is (Maheshwara), Guru is the absolute (singular) Lord himself, Salutations to that Sri Guru!

Indeed, the Guru Shishya bond is the most revered of all the ties that connect one human being to another apart from the parent-child bond. It would not be wrong to say that a teacher is perhaps the only one outside family who takes pride in every success and each milestone achieved by the child and shares his/her disappointment and anxiety before every test. Teachers are ideal role models as they influence the young lives in their care by setting an example through both word and deed and take the responsibility of moulding a child's character at each and every step. Dear Students, cherish this loving bond with every teacher who touches your life in some way or other. Give your teachers the respect they deserve, because they are the ones who can help you get where you need to go.

TEACHER'S DAY CELEBRATIONS

Teacher's Day was celebrated with great enthusiasm and zeal on 5th September 2019 as a mark of tribute to Dr. S.Radhakrishnan and the revered teachers of the school. The programme began with the auspicious havan followed by the assembly where students from classes 1 to 12 presented a potpourri of entertaining skits, foot tapping dances and melodious music to celebrate the occasion. The highlight of the programme was an audio visual presentation where the alumni of the institution shared their priceless memories of their teachers and the school through its 20 year long memorable journey.

MY TRAVEL EXPERIENCE IN EUROPE

RUSHIL RAZDAN XII-D

General Assembly on Hindi Diwas by class IV

A Memorable Trip to London: As soon as I landed in London, I could feel the cold breeze against my face. The air was much cleaner as compared to Delhi. It is definitely a great place to beat the Indian heat during summers. When we landed, it was almost 10:00 pm in the night but still there was light all around as if it was evening time.

Hyde Park and Royal Albert Hall : On the first day we went to the world-famous Hyde Park. It is the largest royal park in London covering 350 acres. One can see Londoners cycling, having a picnic or jogging in the park. This park was earlier a hunting ground used by the royal families but was converted into a park in the 19th century. This park has many beautiful integrated monuments sculpted seamlessly into the park such as the royal Albert monument. It is a beautiful park and a must visit for every tourist. Just across the road is the famous Royal Albert Hall. It is a concert hall. The first Indian to perform at the Albert hall was Lata Mangeshkar, who gave a performance in 1974.

Buckingham Palace : Probably the most well-known tourist place in London which no one can miss. The magnificent palace is the home to the queen. We were lucky enough to see the royal guards change at the gates of the Buckingham Palace. The royal building behind the gilded gates was a structure to behold. It is truly a place worthy for the queen. During our short stay at the front of the palace we clicked several pictures.

London Eye : Another most visited tourist attraction in London with almost 3.75 million visitors annually. It is the tallest observation wheel in Europe. It displays the breathtaking skyline of London. The tall soaring skyscrapers are a treat to behold. Each capsule can hold up to 25 passengers and takes half an hour to complete one revolution. We were in awe, seeing such an enormous structure. The sunset view from the top of the Ferris Wheel was truly enchanting and it was one of the most beautiful sights I had ever seen.

Madame Tussauds : Our final day in London was at the famous wax museum of Madame Tussauds. The museum has lifelike wax sculptures of many famous personalities. It is a very famous place and tourists come here for photographs with the lifelike celebrity sculptures. This was the first ever Madame Tussauds in the world. The place is huge and takes almost half a day to tour completely. My one week stay in London was truly eye opening. The seamless blend of tradition and royalty is truly remarkable. London is truly a global city with one of the most well behaved and lovely people. While boarding my flight back to Delhi from London Heathrow Airport, I closed my eyes and relived my days in London. One advice for tourists is that the water from the taps is completely safe to drink and is a good alternative for expensive packaged water.

FOOD FOR THOUGHT

Class VI-D Assembly on Role of Teach- ers in shaping our lives

A TEACHER
TAKES A HAND,
OPENS A MIND,
& TOUCHES
A HEART. 

CLEANLINESS IS NEXT TO GODLINESS

A lot of students in the school litter in the corridors and classrooms in the recess, using plastic wrappers, paper bits, and aluminum foil. Cleanliness is an important aspect of every institution, but it is expected even more from a young generation well versed with the problems of the modern world.

While children have the right to play and have fun in the recess, this habit of littering around the school even when there are dustbins available in every classroom, and even around the grounds, is not only a sign of disregard towards tidiness, but condescension towards our sanitation workers and janitors as well. Every blue-collar job is hard, and no one wishes to make a living picking up garbage. Therefore, it would be the most basic of kindnesses on your part to respect our amazing support staff.

On a planet where governments refuse to take actions strong enough to curb carbon emissions below the 55% we need by 2030, the least we, as common people, could do is to try to minimize our waste production. Regardless of what you may believe, keeping a lax and casual attitude when it comes to littering at school will, eventually, if not now, result in disdain towards leading a plastic free life as well.

A simple solution is available, of course. Seeing as how trash cans are very common, I find it hard to believe that the majority of students find it difficult to find them. So, next time you find yourself deciding to throw something onto the floor, check yourself and throw it into the dustbin first.

DHRUV MEHNDIRATTA
XII - I

WITH GRATITUDE TO ALL TEACHERS

I still remember the first day you taught me. You intimidated me a little, but I grew to cherish your intimidation. I remember being completely in awe of your style of teaching, with every doubt in my mind vanishing in seconds. I remember being absolutely amazed by your patience and your talent at controlling an entire class of 30 noisy teenagers. I remember being super scared because this was the first time I was going to take exams in senior school, and you were always there, helping me get over that fear and motivating me to work even harder. I remember being thrilled when I found out you were going to teach me the next year as well. Thank you for always being there as a continuous source of kindness in my life. Thank you for providing me the warmth I needed, thank you for scolding me whenever I was going down the wrong path, and thank you for guiding me to the right one. Thank you for comforting me when I was nervous and very scared. Thank you for showering me with blessings all the years you taught me. I'm glad I could be your student. Thank you for being my teacher. A very Happy Teachers' Day to all the teachers who deserve all the smiles and happiness.

POETRY CORNER

Mass Assembly by Western Music Society on “Never Give Up” for classes I-XII

A ‘MID-EXAM’ NIGHT’S DREAM

Here I am now,
In the Examination Hall,
There comes nervousness again,
Making me feel small.

My ground is shaking,
My heart’s palpitating,
I feel the atmosphere
Is very intoxicating.

My mother says,
‘Don’t worry sweetheart,
You’re going to do great!
Just keep that in your heart’.

‘Focus on the process’,
My father says,
‘Don’t worry about the result,
And you won’t score less’.

But there’s the question paper,
Problems are it’s judging eyes,
It’s saying, ‘You can’t do it,
What they said, all lies’.

Suddenly I wake up,
To see my book and pen,
It was all just a dream,
I have to give my paper again!

Kuhu Saha
XI- ‘G’

THE LAND OF WONDER THAT WAS

Once, there was a land of wonder,
With blue lakes and booming thunder,
There was no crime, terrorism or murder,
And enough food for all in the larder.
Once, there was a land of wonder,
But the beautiful fabric was torn asunder,
By the only son who could commit as damning a
sin,
As committing his life towards destroying his own
kin.
We ruined the Earth, our mother,
And the plants and animals that were our sisters
and brothers.
We make pillars of smoke that herald our doom,
As our Creator helplessly watches the gloom.

Mudit Tiwari 9-D

TOGETHER WE FIGHT THE WEAPON OF THE WEAK

The song from my heart grew louder and louder,
May the lord almighty please to decipher.
In anguishing pain they rose far above,
Leaving another memorial down on the Earth.
The soulless people had another party,
After all another person had joined their “party”.
Brainwashing people they went on with their
work,
What else had they to do on Earth?
Spreading terror, conducting massacres they had
no mercy,
Taking lives of innocents they had no courtesy.
Let alone others not even children did they spare,
Leaving bereaving mothers with the pain they
could never bear.
Oh Lord Almighty! Have some mercy,
Lend this world a power to do away with this
enormity.
Let our fellow beings stand together against this
atrocidity.
Let the world be a new place to be in.

MahimaPant

DETERMINATION

I worked hard
I honestly tried
But that didn't suffice...
Tears rolled down my eyes
I asked myself was it alright?
I looked everywhere for the little motivation inside me,
There I found that determination inside me.
That determination to prove myself again and again
That determination to fight back again
That determination to light that burning fire again,
That determination to reach my goal again
There my fighting spirit sparked again
My determination was there to bring me out of my
desperate times
My determination was there to bring me out of my hol-
low life.
There I stood aware
Nothing can stop me if I wish
Nothing is impossible if I wish
Every hurdle can be moved if I push
There were zeal and strong determination
What I needed was the true dedication
I worked hard
I tried
And that did suffice.

THE EXAM

The exams are upon us!
How will we survive?
It's raining cats and dogs,
Upon us and our lives!

There's too much to study,
And a lot of text to learn.
How will we study?
And sacrifice all the fun?

There's so much tension,
So much to worry about.
Will we stay here forever?
Or will we go out?

The brain is exploding,
With so many chapters.
Will we be a slow snail?
Or will we be a leopard?

But our teachers worked really hard
And helped us through exams,
Only the report card can tell...
If victory has come to our Ma'am's!

And after every storm,
There is a rainbow.
After a successful result,
All our faces will glow.

If we get full marks,
Our mood will light up.
With everybody cheering,
Followed by a vigorous jump.

Card Making Activity on “Save Water Save Environment” by I-A,B

SHARING IS CARING

Once upon a time there lived a girl named Rita. She was pretty as well as greedy. All the girls in the village did not like her. She saw a dog which was very hungry. Rita had a bun and she was going to her house. The dog saw the bun in her hand and walked along with her. She hid the bun and threw a stone at the dog and the dog ran away. While walking Rita's bun slipped from her hand and a donkey near her immediately ate the bun. All the village girls laughed at her.

Morale of the story- You should always share food and things with your friends and animals.

Anya Rawat

IF I BECOME THE HEAD GIRL

If I become the junior head girl of the school, first of all, I would be very thankful to the teachers and my coordinator, as well as my principal Ma'am. Being junior head girl would mean that I would play a key role in the school community which is a responsibility that I am willing to take.

I would be approachable to all the students who might have any concerns or worries, and I would help them to the best of my ability. I will work in a team with full confidence. I will be able to balance additional activities and school work.

I will make sure, my fellow students, follow the rules and regulations of our school.

I will make a good relationship with my co-students and listen carefully what they want. I will discuss the same with teachers and get it resolved.

I will look after the cleanliness of the school premises. If I find it inappropriate, I will report it to the concerned in charge and take immediate action.

I will do all the tasks assigned to me, anytime, in a more proficient way.

And on the personal front, by becoming junior head girl, I would get the opportunity to develop public speaking and leadership skills.

I will perform well in academics, sports and would definitely set an example for all the children. At last I would like to say, that I will be a role model for all the children, and I will feel privileged to be elected. JAI HIND.

JUNIOR JUNCTION

- AN OVERVIEW OF JUNIOR WING ACTIVITIES -

INTERHOUSE PATRIOTIC DANCE COMPETITION - Students of Amity International School Mayur Vihar celebrated Independence Day with great zeal and enthusiasm. An inter house patriotic dance competition was held in school where the students grooved on different patriotic dance numbers. Alaknanda house was awarded the first prize.

GENERAL ASSEMBLY (TEACHERS DAY) - Class 2 A presented the assembly on Teachers Day. Students thanked and praised their teachers with a joyful song and gave a handmade memento as a reflection of their love towards them. The assembly concluded with prize distribution by our dynamic Principal ma'am.

GRAND PARENTS DAY - The tiny tots of the school (classes -1 and 2) celebrated Grandparents Day with great enthusiasm to display their unlimited love for their grandparents. The musical titled 'Tab se Ab Tak' elucidated the changes which happened with time and how grandparents have accepted those changes and included them in their daily lives. The presentation of bhajan and dohe uplifted the fervor of the program.

SPECIAL ASSEMBLY (HINDI DIWAS) - Primary Section of AIS, Mayur Vihar celebrated Hindi Diwas on 11th September, 2019 in the school as a mark of acknowledgement of HINDI as the National Language. The celebrations began with the teachings of life through 'Kabir ke dohe' by the students of Grade 2 to 4 followed by enactment of a poem - 'Koel' and a short skit 'Sabzi aur Toffee ki Ladaai'.

HASYA KAVITA SAMMELAN - Continuing the Hindi Diwas Celebrations an Inter House Hasya Kavita competition was held for classes I to IV wherein the children delighted the audience with their heart touching humorous poems. The young poets read out poems on social life, politics, cricket and other issues prevailing in the society.

READING WEEK - Reading Week was celebrated in AIS, Mayur Vihar from 11th to 17th September by conducting various activities for the young readers. From classes I to IV the activities conducted were- Dear Time, Creating Story Maps/Comic Strips, Making Book Buddies and Integrating Reading and Fine Arts.

EXCURSION TO MADAM TUSSAUDS MUSEUM, DELHI - The school organized an exciting trip to Madam Tussauds Museum, Delhi. It is a museum with great significance as all the statues are made up of wax and exhibit wondrous artistry. The students appreciated all the statues and were curious to know about various celebrities and freedom fighters. It was a fun filled trip which added one more dimension to our students' knowledge.

SPECIAL ASSEMBLY (HAPPINESS) - The special assembly conducted by Class 3 B was based on 'Happiness', Children presented the theme beautifully through a Street Play enacted after a welcome song. They also mesmerized the gathering with a rhythmic dance.

JAL SA - EVERY DROP COUNTS

**Class Assembly by
7A on Water Con-
servation “Pani
Bin Jeewan Nahi”**

CLASS 3 PRESENTATION

“Till taught by pain, men know no water’s worth.” – Byron

To sensitize the people about the water crisis the world is facing today, a presentation by the students of class III was showcased on 27th September 2019 in the school auditorium on the theme “**Jal-Sa – Every Drop Counts**”.

The presentation commenced with the lighting of the lamp by our Respected Principal, Ms. Meenu Kanwar Ma’am and the honoured guests followed by a welcome song. A few words of inspiration were shared by our dear Coordinator Ms. Jasleena Kohli Ma’am. The students emphasized the importance of water with the help of a skit portraying the future of Earth without water wherein the life of aquatic animals would be in danger and people would be using water ATMs to withdraw water as per their requirements, the future where water will be used as a gift to bless the people with on auspicious occasions. The audience applauded on watching the scene where in future the ecstatic children of AIS, MV were shown reaching the Moon and realizing our Founder President Sir’s vision.

A very poignant message was portrayed through a mime wherein the children presented how we are wasting the most important natural resource.

Later the parents cheered for the mesmerizing grand finale dance performance.

The presentation concluded with blessings by our respected Principal, Ms. Meenu Kanwar Ma’am.

ECO CLUB -AN OVERVIEW-

JAL SHAKTI ABHIYAN-POSTER MAKING AND POWERPOINT PRESENTATION ON SIGNIFICANCE OF WATER

A feeling of euphoria prevailed at the discovery of traces of water on the moon by Chandrayaan- 1's lunar impact probe in 2008. In 2019, the Chandrayaan 2 Mission was launched by India for mapping the lunar surface for presence of water. But the eco club had some other thoughts. They wondered that we humans waste fresh water & use it un-judiciously creating the need for searching water on other heavenly bodies. Why not conserve and judiciously use what we have instead? There is always enough to satisfy man's need but not greed. We are very proud of our space program but we are amazed on the plight of humans due to freshwater scarcity.

So eco club students set out with a mission to spread awareness about "save-water, save life". We should do space exploration for the sake of curiosity. But we should not waste the earth's resources so as to prevent human extinction. If we continue to waste water we will become extinct as it is very difficult to find another home away from home.

Our earth as seen from voyager 1 Space Craft in 1991

Famous picture: 'the pale blue dot'

We can observe that our earth is only a 'pale blue dot' in this vast universe which is probably the only life supporting planet in this mega cosmos. We should do everything to save our habitat.

BOOK REVIEW—A MAN CALLED OVE

Author: FREDRIK BACKMAN

This story is about a sixty year old man named Ove. He had lost his wife, Sonja. She died of cancer. Ove didn't have anyone except for Sonja. His parents died when he was very young. He even lost his best friend. Since Sonja died, Ove had made several attempts to kill himself, but he was always interrupted. The story starts with Ove arguing with a salesperson to get the perfect iPad for an eight year old girl. From here the flashback starts. Ove lives alone, he has no children and his only wish is to be with Sonja for all of his life. Ove is the grumpiest man you will ever meet. He is the typical old man arguing that everything should be perfect and everyone should follow rules. He would conduct early morning checks, note down the serial numbers of the cars in the parking area and then cross check them again the next morning and see if any of the cars are still there because no cars are allowed in the residential area and if there are, he would start knocking on the doors. An integral part of the story are Ove's neighbours. They are an Iranian family who have just moved into the U.S. country. They have no clue about anything. Ove thinks that he is surrounded by idiots. He has such unwavering conviction about what the world should be and a lifelong dedication to make it just so. It's a bittersweet heart warming tale that will change your perception of life, it will restore the power of faith and friendship in you and it will even make you love cats! You will laugh, you will cry, but you will come back for more.

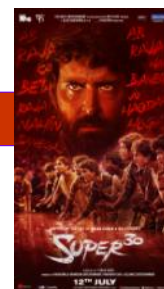

Shubhangi Saxena XII- A

MOVIE REVIEW-SUPER 30

Director: VIKAS BEHL

Reviewing the 'Already Viewed' has always been a way of providing the people with a wider view of options that could fulfil their aspirations for a good leisure time, and the movie, 'Super 30' is one of those. Filmed in the rural horizon of the state of Bihar, Super 30 is a biopic of a life changing personality, Mr. Anand Kumar. The movie explains his story of success, grief, alterations, values, commitment, dignity and compromises that he had made to protect many young minds from the social hierarchy system of the society where he not only established the foundation stone of dignity in thirty students but also in over a thousand lives. Actor Hrithik Roshan convincingly portrays his aura and charm as Anand Kumar, making the audience applaud his performance. The act performed by various supporting actors was one of the key reasons that made the movie enjoyable, entertaining and loved by all. A cherry on the top was the short yet the pleasing piece of actor Pankaj Tripathi as the corrupt education minister that added a new excitement. The cinematography was highly praiseworthy where the visuals and graphics captured all the attention and depicted the principles of science and mathematics in a fun way, appealing to the audience. To cut a long story short, Anand Kumar was a brilliant mathematician who aimed to study in Cambridge University. However, financial problems restricted him from fulfilling his dreams. After the demise of his father he was the only breadwinner of the family and was forced to do petty jobs to earn a living. Later he started working as a teacher in a popular coaching centre. Soon he realized the irrelevance of such a business and motivated himself to join the path of thinking for others, by preparing IIT aspirants from underprivileged sections. I feel that this movie portrayed the biography of a selfless person in the most appealing way.

WITH GRATITUDE FOR YOUR APPRECIATION

Dear Ma'am,
I would like to introduce myself as Kashvi Puri's mother studying in class 4-B. I want to thank you all for the success of the class presentation with the hundred percent participation of the students. It was a great pleasure to be part of the presentation which students presented with great ease. All the credit goes to teachers and other co-members who took initiative to make the children confident and growing. We are happy to be part of this great institution (Amity International School) with the talented and co-operative staff.

Thanks!
Deepti Puri
(Kashvi's Mother 4-B)

Dear Ma'am,
We visited the school for presentation day last Saturday. We were impressed by the well maintained spotless school and clean auditorium. I must appreciate the effort put in for the presentation day. I had tears in my eyes when the students started their shlok. Words would not be enough to praise you all. The dedication and efforts of the teachers and students was clearly visible. It was wonderful watching small kids performing with great enthusiasm. The function was well organized and also managed professionally. The best part of the function was the time management. Music was so good and cheerful, it not only made kids dance but the whole audience. I would like to congratulate the entire team for putting up such a splendid show. The theme (Bond of Love) for the presentation day was commendable. We were able to witness the bond in all the acts. The team work was so evident and looking forward for another wonderful event. Good job everyone !!! Amity rocks.. JAI HIND..
